It's presented in an easy-to-read, conversational tone, and includes more than 400 figures and photos augmenting the text. The Audio Expert takes the intermediate to advanced recording engineer or audiophile and makes you an expert. The book goes far beyond merely explaining how audio "works." Staged Readings Michael D'Alessandro 2022-09-26 Staged Readings studies the social consequences of 19th-century America's two most prevalent leisure forms: theater and popular literature. In the midst of watershed historical developments—including numerous waves of immigration, two financial Panics, increasing wealth disparities, and the Civil War—American theater and literature were developing at unprecedented rates. Playhouses became crowded with new spectators, best-selling novels flew off the shelves, and, all the while, distinct social classes began to emerge. While the middle and upper classes were espousing conservative literary tastes and attending family matinees and operas, laborers were reading dime novels and watching downtown spectacle melodramas like *Nymphs of the Red Sea* and *The Pirate's Signal* or, *The Bridge of Death!!!* As audiences traveled from the reading parlor to the playhouse (and back again), they accumulated a vital sense of social place in the new nation. In other words, culture made class in 19th-century America. Based in the historical archive, Staged Readings presents a panoramic display of mid-century leisure and entertainment. It examines best-selling novels, such as Harriet Beecher Stowe's *Uncle Tom's Cabin* and George Lippard's *The Quaker City*. But it also analyzes a series of sensational melodramas, parlor theatricals, doomsday speeches, tableaux vivant displays, curiosity museum exhibits, and fake volcano explosions. These oft-overlooked spectacles capitalized on consumers' previous cultural encounters and directed their social identifications. The book will be particularly appealing to those interested in histories of popular theater, literature and reading, social class, and mass culture.

What today’s smart consumer must have is a money-and-time-saving guide for conducting the “business of life”—both the big challenges, such as getting top-notch health care for the family and the best education for the kids, and the pleasurable ones, like plotting the family summer vacation. Nancy Keates and her expert colleagues at The Wall Street Journal provide all-new material that gives the lowdown on: The Savvy Traveler: How to cut to the chase and not only avoid the indignity of cramped plane seats and overpriced tickets, but also get the best and safest seats at the same time. The Fine Art of Dining and Drinking: Landing the hottest table in town—at a discount; picking wine without becoming a wine snob; and learning about “barley matters”—the newest, hottest beers. How to Speak Geek: Demystifying tech trends, with smart advice on not only what high-tech gadgets to buy but how to shop for them. Everything You Need to Know About Buying, Selling and Financing a Car: How to get the best and safest vehicle at the best price. Real Estate: Will the bubble burst? Here’s how to be an informed buyer and seller along with the basics of remodeling and designing your home. How to Be an Informed Patient: Choosing a hospital, playing private investigator with your M.D., and learning about the tests you really ought to have (even if you have to pay for them yourself). Getting Real Bang for Your Education Bucks: What you need to know from preschool through college and graduate school. The Great Balancing Act: Managing work and family, and finding out how to avoid the overstretched child and parent syndromes. Financing Your Life: It was easy in the 1990s, but the world has changed dramatically. Here’s how to deal with the new world of saving, investing and borrowing money. Shopping: The New Sex? Throw away your Kama Sutra. The number one thrill in shopping is getting a good deal—here’s how to play the game and get the best stuff at the best price. The Wall Street Journal Guide to the Business of Life is both an instruction manual for living life to the fullest and a fun read about what really matters in the day-to-day. It has all the basic insight and information you need to navigate through life along with hilarious side trips such as “The Three-Decorator Experience” and “Cruises: Sailing New Waters.”
