Getting To Know Schools In

A Democracy Helen Simons

2013-10-28 First published in 1987. The central concept of the book is that of 'democratic' evaluation, one of the most influential ideas in the development of education practice in this country since professional evaluation emerged in the 1960s. The question explored, through an examination of the theory and practice of democratic evaluation, is whether it is possible to both posit and practice an approach to evaluation that provides an effective curb on the derivatisation and centralisation of information for educational decision-making. The book documents the emergence of politically conscious evaluation in this country and through two

detailed cases explores the strengths and weaknesses of democratic theory in practice. Issues concerning the rights, obligations and freedoms of evaluators in the conduct and dissemination of evaluations are discussed.

Curriculum Evaluation in

Schools Robert McCormick

2018-10-03 Originally published in 1983 and as a second edition in 1988. An attempt is made in this book to disentangle some of the professional, ethical, political, theoretical and practical issues involved in curriculum evaluation. This book present evidence concerning a number of evaluation strategies and techniques, drawing on experience in several countries, including the UK, Australia and the US, to debate the potential of insider and outsider approaches to

of the two. It also offers a practical source book for those wishing to plan and conduct curriculum evaluations. Finally, it considers the crucial question of how evaluation can influence curriculum action and, thereby, teaching and learning.

Counselling in Schools - A

Reader Keith Bovair

2013-11-26 First Published in 1994. Keith Bovair is currently Headteacher at Durants School, Enfield. He was formerly a lecturer at the University of Birmingham. He has worked extensively in the field of special education in the United Kingdom and in the United States of America. He has published widely in this area. Colleen McLaughlin is Tutor in Personal and Social Education at the University of Cambridge Institute of Education, where she runs courses in counselling and personal and social education.

The book features research by economists, management theorists and education researchers, and accounts of experience by LEA officers and a primary school Deputy Head. It points to a range of critical issues deriving from paradoxes in the theoretical models underpinning the 1988 Education Reform Act.

Language Teacher

Education Jon Roberts

2016-04-29 'Language Teacher Education' is an introduction to language teacher training and development for teachers and providers in pre-service and in-service programmes. The text outlines the main theories of human learning and applies them to teacher education. Based on a broadly social constructivist perspective, it suggests a framework for planning pre-service and in-service programmes, and is illustrated both with case studies from a range of training situations around the world and appendices containing teacher education materials. Language Teacher Education is

intended to inform readers

practical decisions and to help them build their own theories of teacher learning.

Routledge Library Editions: Education Management

Various 2021-07-29 Reissuing works originally published between 1975 and 1997, this collection includes books covering all aspect of managing schools, from primary to further education. With an international selection of authors, some volumes present case studies while others address wider areas of concern in the management of educational institutions. Individual volumes concern special schools and specific types such as the grant-maintained system in the UK. Topics cross over from finance to staff development to politics and governance to innovation. This is an excellent varied set for any education management bookshelf.

~~Management Skills in Primary~~

Schools Les Bell 2018-05-11

Originally published in 1988.

The qualities that identify a good school are high teaching standards and teacher morale, good levels of behaviour, successful pupil performance and a well-balanced provision of extra-curricular activities. Such schools are described as 'well-run' but the correlation between effectiveness and an explicit management strategy is not yet established. This book seeks to examine the role of management in the primary school and to identify those areas in which effective management practice can make a valuable contribution to school life for the benefit of both staff and pupils. It argues that although useful insights can be gained into school organisation from the scientific management perspective, the human relation approach to management has more to offer to those working in the primary sector. The focus is therefore on personal relationships. The importance of a clear sense of purpose is emphasised

throughout, especially in view of the challenges which now face our primary schools.

Inspection James Learmonth 2020-11-25 This text traces the development of different forms of inspection. It draws on a range of sources such as rigorous and informed research and inspection evidence, writing by key figures, teachers' own experiences, newspaper headlines and other comments, whilst remaining jargon-free. This topical book includes summary questions and other signposts for the reader, as well as a fully annotated bibliography. It also pays attention to other types of school self-evaluation. James Learmonth explores the impact of inspection on schools in difficulties, and outlines the ways in which research and other evidence suggests that schools do improve.

Primary School Management: Learning from Experience Eric Briault 2003-09-02 Issues raised include: improving the quality of pupils' learning experience; effective staff organisation; development of

policy and management of resources; and establishing good relationships between the head, the school and the community.

Research David Reynolds 2002-11 What constitutes quality schooling? What are the implications for educational practice and administration? The text looks at these questions and examines international research evidence and reform initiatives with particular emphasis on North America, UK, Australasia and the Third World. It offers a synopsis of the Third World School Effects Research (SER). The authors claim that the challenges now facing educational leaders is to find a balance between SER and the other school movements and to ask more demanding questions of our educational systems.

OFSTED Inspections Janet Ouston 2017-09-29 The national programme of four-yearly school inspections was introduced in 1993, based on common criteria set out in OFSTED's Handbook for the Inspection of Schools. Revised guidelines were introduced in February 1996, reflecting the lessons learned, and this book, originally published in 1996 articulates ideas that would have informed these revisions, including short essays by the Secretary of State for Education and Employment and the Education spokesmen of the Labour and Liberal Democrat parties. Registered

inspectors, teachers, researchers, parents, school governors, policy analysts and policy makers all offer their experience of the strengths, weaknesses and outcomes of the OFSTED inspection process. The book is a companion to *Improvement through Inspection?* – *Complementary Approaches to School Development* by the same Editors, published and now reissued simultaneously. The School Review 1924 Schools Council Report Schools Council (Great Britain) 1979 **Curriculum, Schooling and Society in Hong Kong** Paul Morris 2010-11-01 "Hong Kong is a fascinating place for the study of curriculum. Its schooling system is influenced by the legacies of a Chinese tradition and British colonialism and was developed at a time when, around the world, that state was taking more responsibility for the education of young people and educational policies were increasingly influenced by the impact of globalization. To this we can add the complexities of

~~Hong Kong as a society~~ --one that has witnessed major political and economic changes over the past 150 years or so, and particularly since the late 1970s. The dynamics produce an intricate interplay of innovation and conservatism, globalization and localization, liberalism and authoritarianism, devolution and centralization, and many other tensions. This book provides a comprehensive introduction to curriculum as a field of study in a way which highlights its inherent dilemmas and complexities by illustrating the diverse ways in which a curriculum can be developed and analyzed. It also presents a specific analysis of the Hong Kong school curriculum and highlights the ways in which the curriculum both reflects and changes in response to broader socio-political shifts."--Publisher's website.

book defines what it means to practice and how to achieve it, asking How can parent-teacher partnership become a reality for all concerned and why is there resistance to it?.

The Search for Quality Del Goddard 1992-10-28 The book is recommended for headteachers, teachers, advisers, inspectors, as well as politicians, parents and governors. Those involved in the training of teachers should be added to this list, and all should be encouraged to consider the issues raised' - Education Review 'An excellent text for heads advisers, officers, appraisal coordinators, trainers, governors and students about to enter, or already in, education' - Management in Education The Search for Quality makes the case for a deeper understanding of the concept of quality as well as for a recognition that there are well established principles and processes for developing quality, which should lie at the heart of the work

Improving Schools and

Inspection Neil Ferguson

2000-04-10 'This is an important book, not least because Ofsted may well have changed English schools more substantially than any previous curriculum development or assessment development programme' - Mentoring & Tutoring This book looks at the relationship between school inspection and school improvement. The authors show how heads have used inspectors' reports to put in place real school improvement. They deal with the contexts of inspection and comparisons are made with the Australian experience of school self-review. The book focuses on how schools have developed a culture of self-inspection. The authors consider the system of Ofsted inspections and ask how beneficial inspection has been in encouraging schools to develop and improve. They suggest there is need for a change and that there are alternative approaches to school assessment and improvement, which could be more effective. They argue that

the school's own evaluation processes should play a greater part in the arrangements for inspection. Improving Schools and Inspection will be essential reading for headteachers and other professionals engaged in dealing with inspections.

John Sayer 1994 Provides a positive reaffirmation of a strong value base to secondary education, based on principles of access and entitlement, and achieved through sound participative management and relevant staff support and development.

Developmental Planning for School Improvement David Hopkins 1995-01-01 This text represents the experiences from six English speaking countries in the field of school development planning. There are chapters discussing staff development, quality reviews and school organization and effectiveness.

A Teacher's Guide to Classroom Research David Hopkins 1993 "The fourth edition of this bestselling book is a practical guide for teachers

who wish to conduct research in their classrooms and for schools that wish to improve their practice. Classroom research, as described in this book, will enable teachers to enhance their own or their colleagues' teaching, to test the assumptions of educational theory in practice and to implement and evaluate whole school developments." "The book also explores models of teaching and learning; methods for collecting, analyzing and reporting data; and the ways in which classroom research can be published and linked to the curriculum, teaching and staff development."--BOOK JACKET.

Teaching: Professionalisation, Development and Leadership

David Johnson 2008-06-04

Harry Judge It is doubly fortunate that a foreword is not an introduction. Since it is mercifully brief, it should not be expected to mention respectfully each of the distinguished contributions which constitute "the word" before which it modestly stands as herald. For the same reason it cannot be expected to

Guidelines For Review And Internal Development In Schools Secondary Schools Handbook

constrain within one overarching framework contributions which are essentially varied in subject matter and method. The brief of a foreword-writer might indeed be compared to that of a musician commissioned to write an overture to an opera which he had not written. To write such a piece for a volume devoted to Eric Hoyle is nevertheless a privilege as well as a pleasure. Partly, of course, because this volume celebrates a long and distinguished career devoted to the application of intelligence and (less assertively) theory to the improvement of practice. And partly because this abbreviated overture is privileged by being placed before a set of virtuoso performances throughout which consistent and coherent themes do insistently resonate. Those themes are the very same that distinguish Eric Hoyle's own work.

Advancing Education William Walker 2018-05-11 Originally published in 1991. Compiled by prominent figures in the educational administration field across the Commonwealth for the twentieth anniversary of the foundation of the Commonwealth Council for Educational Administration (CCEA) this imaginative and forward-looking book is for practitioners and academics world-wide. The book illuminates significant issues in educational administration; sensitizes readers to the rapidity and inevitability of change in the field; guides well-informed administrative action; provides a comprehensive overview of emergent developments in the study and practice of educational administration; and demonstrates the leadership of the CCEA as a professional association. Having regard to differences of national context, universal issues of policy and practice

are explored and two key

leadership roles are described and analysed, namely, that of school principal / head teacher, and that of school superintendent / education officer.

Routledge Library Editions: Curriculum Various 2021-07-09 Reissuing works originally published between 1971 and 1994, this collection includes books which offer a broad spectrum of views on curriculum, both within individual schools and the wider issues around curriculum development, reform and implementation. Some cover the debate surrounding the establishment of the national curriculum in the UK while others are a more international in scope. Many of these books go beyond theory to discuss practical issues of real curriculum changes at primary or secondary level. The Set includes books on cross-curricular topics such as citizenship and environment, and also guidance, careers, life skills and pastoral care in schools. A fantastic collection
