Humans, Horses and Events Management Katherine Dashper 2021-03-12 Horses are perhaps the most common non-human animal to feature in planned events, but although there is considerable research on equestrian sport, there is virtually none on equestrian events. This book begins to address this gap, using the National Championships of the Icelandic Horse as an extended case study to explain in depth the process of managing an event, as well as the larger theoretical implications of events management. Drawing on diverse viewpoints and theoretical perspectives, the book draws wider comparisons to connect events management to larger themes in the social sciences, such as human-animal relations; nationalism; place branding; event impacts; event experience; and inclusion and exclusion. The book is a contribution to two fields. In relation to human-animal studies, it focuses on how the Icelandic horse breed is marketed and celebrated through top-tier competition; whereas from an events management perspective, it considers the role of the event in community building, the practical and theoretical aspects of running a sustainable equestrian event, and the issues that arise in multispecies event contexts.

Pony Play Games and Puzzles Helene Hovanec 2008-06-18 Jackie the little Jack Russell terrier and Barney the barn owl see all the goings-on around the horse farm every day. They provide lively running commentary and silly horsy humor in this delightful collection of connect-the-dots, word games, mazes, fill-in-the-blanks, and logic problems — each puzzle specially created for horse-crazy kids. Five sections — Walk, Trot, Show Time, Canter, and Gallop — feature puzzles that progress in difficulty, encouraging children to take the challenge and expand their skills as they work their way through the book, and perhaps through their riding lessons as well! By the time children are galloping through the final chapter their puzzle skills will be blue-ribbon impressive. Each illustrated page is packed with complementary drawings, clever asides from Jackie and Barney, perhaps a riddle or a joke, and the puzzle itself. There is always plenty of room for small fingers to solve the challenge, even when the child makes a mistake or two. Educational and entertaining, Pony Play stimulates kids' imaginations and feeds their desire to learn more about horses.

World War I in 40 Posters Ann P. Linder 2016-04-01 Published during the war's centennial, this is the story of the First World War through forty propaganda posters. Essays explain each poster, unpacking the visual imagery and setting the poster within the military, political, social, and cultural history of the war.

Saving Baby Jo Anne Normile 2014-10-21 "If we see cruelty or wrong that we have the power to stop, and do nothing, we make ourselves sharers in the guilt." --Anna Sewell, author of *Black Beauty* Jo Anne Normile was not supposed to keep the foal, an exuberant Thoroughbred with only a few white hairs on his reddish-brown forehead. But she fell in love with the young horse, who had literally been born into her arms. The breeder finally said she could keep the colt, whom she nicknamed "Baby" - but only if she raced him. It was difficult to take Baby away from the safety of his pasture. But Normile had made a promise. Besides, horseracing had always come across as a glamorous blend of mint juleps and celebrity, of equine grace and speed. It was a vision she found appealing. And she fell hard for it, this "Sport of Kings." She experienced a thrill every time Baby sprinted around the track, edging out other horses. But the magic that enchants is a veneer. For every Seabiscuit, there are tens of thousands of racehorses whose lives end in pain and despair, with indifference and corruption that runs rampant through the world of horse racing. Normile knew none of this. Not until an accident on a poorly maintained track. That's when everything changed. That's when Normile founded the most successful horse rescue in the country, an organization that would go on to save more horses than anyone else ever had. That's when she knew she had no other choice. *Saving Baby* is Jo Anne Normile's story of perseverance and passion. A heartbreaking and ultimately life-affirming book, it testifies to the transcending power of hope, and the unshakeable bond of love.

The Red Horse Eugenio Corti 2010-10-19 A literary phenomenon in Italy, this European best-seller was voted the best Italian novel of the decade in a public survey. Its success has gone way beyond Italy, having been translated into Spanish, French, Japanese and 3 other languages. This epic historical novel about World War II and after, written from the author's own personal experiences as an Italian Freedom Fighter, is a profoundly moving account of the war, those who fought in it on both sides, and the effects the war had on families in the author's hometown in northern Italy. On a wider scale, it is a faithful witness to the actual events of the war-including the historic personages who appear, the

Russian campaign, the Nazi barbarism, the Communist gulag, the North Italian resistance, and beyond to the political life in the two decades after the war. This world, filled with powerful personalities, drama and clashing armies, bathes in the complex light of the truth. A truly great historical novel with its epic scope, what makes this a masterpiece is the underlying spiritual dimensions of the protagonist, his family and friends, which illuminates the ongoing tragedy of the war and its aftermath. In the end, it is a story of faith and hope in a world reduced to barbarism and cruelty. Born in 1921 in Lombardy, Eugenio Corti joined the Italian Freedom Fighters. From his experiences of the tragic retreat from Russia, Corti wrote a fascinating chronicle, *Most Did Not Return*, and a book about the Italian Freedom Fighters, *The Last Soldiers of the King*.

Art and Advertising in Buffalo Bill's Wild West Michelle Delaney 2019-10-24 William F. "Buffalo Bill" Cody, star of the American West, began his journey to fame at age twenty-three, when he met writer Ned Buntline. The pulp novels Buntline later penned were loosely based on Cody's scouting and bison-hunting adventures and sparked a national sensation. Other writers picked up the living legend of "Buffalo Bill" for their own pulp novels, and in 1872 Buntline produced a theatrical show starring Cody himself. In 1883, Cody opened his own show, Buffalo Bill's

Wild West, which ultimately became the foundation for the world's image of the American frontier. After the Civil War, new transcontinental railroads aided rapid westward expansion, fostering Americans' long-held fascination with their western frontier. The railroads enabled traveling shows to move farther and faster, and improved printing technologies allowed those shows to print in large sizes and quantities lively color posters and advertisements. Cody's show team partnered with printers, lithographers, photographers, and iconic western American artists, such as Frederic Remington and Charles Schreyvogel, to create posters and advertisements for Buffalo Bill's Wild West. Circuses and other shows used similar techniques, but Cody's team perfected them, creating unique posters that branded Buffalo Bill's Wild West as the true Wild West experience. They helped attract patrons from across the nation and ultimately from around the world at every stop the traveling show made. In *Art and Advertising in Buffalo Bill's Wild West*, Michelle Delaney showcases these numerous posters in full color, many of which have never before been reproduced, pairing them with new research into previously inaccessible manuscript and photograph collections. Her study also includes Cody's correspondence with his staff, revealing the showman's friendships with notable American and European artists and his show's complex, modern publicity model. Beautifully designed, *Art and Advertising in Buffalo Bill's Wild West* presents a new perspective on the art, innovation, and advertising acumen that created the international frontier experience of Buffalo Bill's Wild West.
