Hymnody: Historical and Theological Introductions is a sixty-chapter, three-volume introductory textbook describing the most influential hymnists, liturgists, and musical movements of the church. This academically grounded resource evaluates both the historical and theological perspectives of the major hymnists and composers who have impacted the church over the course of twenty centuries. Volume 1 explores the early church and concludes with the Renaissance era hymnists. Volume 2 begins with the Reformation and extends to the eighteenth-century hymnists and liturgists. Volume 3 engages nineteenth century hymnists to the contemporary movements of the twenty-first century. Each chapter contains these five elements: historical background, theological perspectives communicated in their hymns/compositions,

contribution to liturgy and worship, notable hymns, and bibliography. The mission of Hymns and Hymnody is (1) to provide biographical data on influential hymn writers for students and interested laypeople, and (2) to provide a theological analysis of what these composers have communicated in the theology of their hymns. We believe it is vital for those involved in leading the worship of the church to recognize that what they communicate is in fact theology. This latter aspect, we contend, is missing—yet important—in accessible formats for the current literature.

### **Myth Lionel Adey 2011-11-01**

From its beginnings in the Bible, Christian hymnology has fulfilled three functions -- praise, recital and teaching of the Myth, and collective and personal adoration as well as the foundation and worship of the church. In Hymns and the Christian Myth Lionel Adey demonstrates that over the centuries shifts emphasizing particular elements of the

Christian faith accord with the interests and concerns of the times in which the hymns were composed. Using a broad range of texts, Adey deals with major themes of every period from biblical times to the early twentieth century. In tracing the changes in representation of the Father, Son, Holy Spirit and Four Last Things in early and medieval Latin hymns, post-Reformation chorales and psalm-based hymns, and English hymns from the time of Watts, the book shows an increasing sense of personal response to the Incarnation and Passion of Christ and of participation in His redemptive work. Chapters on hymnody of the Nativity and Passion illustrate the tendency of monastic poets (the Learned tradition) to focus on dogma, mystery, and paradox, and carolists (the Popular tradition) to convey devotional tenderness. Those on hymnody of the Holy Spirit illustrate a shift through the medieval period from representing pentecostal events to exploring their spiritual meaning. During

the Reformation and the Evangelical Revival, the weight of hymnody shifts first to the Father and then to the Son's Passion and Atonement, applied personally and inwardly re-lived by the convert. Most consistently, hymnic representations of the Last Things shift their focus from collective to individual judgement, from death as sleep until the general awakening to death as instant passage to reunion with family and friends. As a hymnologist rather than a theologian, Adey makes no pronouncements on the truth of Christian beliefs. His focus is on how poets have expressed them over two millenia. As such, the book will interest not only students of religion but also those in such related disciplines as literature, psychology, history, and sociology.

**the Years 1881-1900** British Museum. Department of Printed Books 1903  
Christian Hymnody in Twentieth-Century Britain and America David Music 2001-07-30 The 20th century, especially the latter decades, was a time of explosive growth and importance in hymnody, and yet published material about the hymnody of this period has been scattered and difficult to come by. The present volume catalogues and categorizes the available writings to guide students and scholars in their research. Furthermore, this reference does not depend primarily on the view of the author/compiler, but guides users toward a broad spectrum of viewpoints about 20th-century hymnody. Listing the principal writings on the repertory, language, practice, and people of hymnody during the last century, this annotated bibliography offers students and researchers alike a handy reference for a vast and varied field. Beginning with a unique introduction to and summary of

hymnody in the 20th century, Music arranges the entries by topic, dividing each chapter by helpful subject headings. The repertory of the twentieth century, and language issues are discussed. Practical elements of hymnody are covered, while the final chapter lists writings about individual hymn writers and other influential persons in the field. Music provides a brief annotation for each entry and uses numerous cross-references, guiding the reader to relevant material in other sections of the book. A comprehensive index concludes this essential reference.

First published in 1989, this is  
the first of three volumes  
exploring the changing notions  
of patriotism in British life from  
the thirteenth century to the  
late twentieth century and  
constitutes an attempt to come  
to terms with the power of the  
national idea through a  
historically informed critique.  
This volume deals with the role  
of politics, history, religion,  
imperialism and race in the  
formation of English  
nationalism. In chapters  
dealing with a wide range of  
topics, the contributors  
demystify the prevailing  
conceptions of nationalism,  
suggesting 'the nation' has  
always been a contested idea,  
and only one of a number of  
competing images of  
collectivity.

Hymns and Constructions of Race Erin Johnson-Williams  
2024-02-07 Hymns and Constructions of Race: Mobility, Agency, De/Coloniality examines how the hymn, historically and today, has reinforced, negotiated, and resisted constructions of race. It brings together diverse perspectives from musicology, ethnomusicology, theology, anthropology, performance

studies, history, and postcolonial scholarship to show how the hymn has perpetuated, generated, and challenged racial identities. The global range of contributors cover a variety of historical and geographical contexts, with case studies from China and Brazil to Suriname and South Africa. They explore the hymn as a product of imperialism and settler colonialism and as a vehicle for sonic oppression and/or resistance, within and beyond congregational settings. The volume contends that the lived tradition of hymn-singing, with its connections to centuries of global Christian mission, is a particularly apt lens for examining both local and global negotiations of race, power, and identity. It will be relevant for scholars interested in religion, music, race, and postcolonialism.
