The First Book of Jewish Jokes Elliott Oring 2018-09-04 Works on Jewish humor and Jewish jokes abound today, but what formed the basis for our contemporary notions of Jewish jokes? How and when did these perceptions develop? In this groundbreaking study and translation, noted humor and folklore scholar Elliott Oring introduces us to the joke collections of Lippmann Moses Büschenthal, an enlightened rabbi, and an unknown author writing as "Judas Ascher." Originally published in German in 1812 and 1810, these books include jokes and anecdotes that play on stereotypes. The jokes depict Jews dealing with Gentiles who are bent on their conversion, Jews encountering government officials and institutions, newly propertied Jews attempting to demonstrate their acquisition of artistic and philosophical knowledge, and Jews engaged in trade and moneylending—often with the aim to defraud. In these jokes we see the antecedents of modern Jewish humor, and in Büschenthal's brief introduction we find perhaps the earliest theory of the Jewish joke. Oring provides helpful annotations for the jokes and contextualizing essays that examine the current state of Jewish joke scholarship and the situation of the Jews in France and Germany leading up to the periods when the two collections were published. Intended to stimulate the search for even earlier examples, Oring challenges us to confront the Jewish joke from a genuine historical perspective.

**Conversations with Dave Eggers** Scott F. Parker 2022-01-04 It's been barely twenty years since Dave Eggers (b. 1970) burst onto the American literary scene with the publication of his memoir, *A Heartbreaking Work of Staggering Genius*. In that time, he has gone on to publish several books of fiction, a few more books of nonfiction, a dozen books for children, and many harder-to-classify works. In addition to his authorship, Eggers has established himself as an influential publisher, editor, and designer. He has also founded a publishing company, McSweeney's; two magazines, *Might* and *McSweeney's Quarterly Concern*; and several nonprofit organizations. This whirlwind of productivity, within publishing and beyond, gives Eggers a unique standing among American writers: jack of all trades, master of same. The interviews contained in *Conversations with Dave Eggers* suggest the range of Eggers's pursuits—a range that is reflected in the variety of the interviews themselves. In addition to the expected interviews with major publications, Eggers engages here with obscure magazines and blogs, trade publications, international publications, student publications, and children from a mentoring program run by one of his nonprofits. To read the interviews in sequence is to witness Eggers's rapid evolution. The cultural hysteria around Eggers's memoir and his complicated relationship with celebrity are clear in many of the earlier interviews. From there, as the buzz around him mellows, Eggers responds in kind, allowing writing and his other endeavors to come to the fore of his conversations. Together, these interviews provide valuable insight into a driving force in contemporary American literature.

**Secretly Inside** Hans Warren 2006 In the Dutch countryside the war seems far away. For most people, at least. But not for Ed, a Jew in Nazi-occupied Holland trying to find some safe sanctuary. Compelled to go into hiding in the rural province of Zeeland, he is taken in by a seemingly benevolent family of farmers. But, as Ed comes to realize, the Van 't Westeindes are not what they seem. Camiel, the son of the house, is still in mourning for his best friend, a German soldier who committed suicide the year before. And Camiel's fiery, unstable sister Mariete begins to nurse a growing unrequited passion for their young guest, just as Ed realizes his own attraction to Camiel. As time goes by, Ed is drawn into the domestic intrigues around him, and the farmhouse that had begun as his refuge slowly becomes his prison.

*The SEAL's Miracle Baby* Laura Marie Altom 2015-06-02 SHE BROKE HIS HEART Jessie Long knew she made the right decision years ago. Grady Matthews wanted a ranch and a home full of kids, and she couldn't give him that. So she cut him loose for his own good. They went their separate ways--Grady left to join the Navy and Jessie stayed home. Now a deadly twister has flattened their hometown, and it's brought them back together--and back to square one. The passion's still there, and the easy understanding. Even the way they care for the orphaned baby found in the aftermath just seems to fit. For Grady, that's enough. He's sure they can make a life together. But for Jessie, the secret that tore them apart is still hiding under the surface. And she can't face losing Grady a second time.

**English Literature** Ezekiel Leon 2019-01-28 The book methodically graphs the direction of the English novel from its rise as the chief scholarly class in the mid twentieth century to its mid twenty first century status of unpredictable greatness in new media conditions. Precise parts address 'The English Novel as a Distinctly Modern Genre', 'The Novel in the Economy', 'Genres', 'Gender' (performativity, masculinities, woman's rights, eccentric), and 'The Burden of Representation' (class and ethnicity). Broadened contextualized close readings of more than twenty key writings from Joseph Conrad's *Heart of Darkness* (1899) to Tom McCarthy's *Satin Island* (2015) supplement the methodical approach and energize future research by giving reviews of gathering and hypothetical points of view. Expanding specialization inside the teach of English and American Studies has moved the concentration of insightful dialog toward hypothetical reflection and social settings. These improvements have profited the train in more courses than one, yet they have likewise brought about a specific disregard of close perusing. Therefore, understudies and scientists inspired by such material are compelled to swing to grant from the 1970s, quite a bit of which depends on dated methodological and ideological presuppositions. The handbook means to fill this hole by giving new readings of writings that figure unmistakably in the writing classroom and in academic level headed discussion aE ' from James' *The Ambassadors* to McCarthy's *The Road*.

*Understanding Dave Eggers* Timothy W. Galow 2014-11-12

*Understanding Dave Eggers* surveys the work of one of the most celebrated American authors of the twenty-first century and is the first book-length study incorporating Eggers's novels, short-story collections, and film scripts. With a style aimed at students and general readers alike, Timothy W. Galow offers a textual analysis that uniquely combines Eggers's early autobiographical works and the subject of celebrity as well as his later texts that deal with humanitarian issues. Galow devotes a chapter to each of Eggers's major works, from his first book, the Pulitzer Prize-nominated memoir, *A Heartbreaking Work of Staggering Genius*, though his recent novel, *A Hologram for the King*, a National Book Award finalist about an aging American businessman chasing

success in Saudi Arabia. Other chapters cover You Shall Know Our Velocity, What Is the What, and Zeitoun. Each chapter studies the major themes and styles of the featured work while also placing it in the context of Eggers's oeuvre. In this way Galow examines each text in its own right, but he also offers us a larger guide to all of Egger's work. Providing important historical background for understanding Eggers's literary work, Galow examines how Eggers's texts are deeply invested in both his own public persona and the changing cultural conditions in the United States over the past twenty years. Galow's careful analysis is conveyed in clear language that engages issues important to contemporary critics without being pedantic or jargon laden. As a result Understanding Dave Eggers can serve as a useful introduction to the author's work or a valuable resource for the devoted reader.

*Water in the Belly* D.L. Snow 2017-07-21 In this parody of all-knowing capitalism, Frank Holmes survived the stock market crash of 2008 by parody, forming a rock and roll band called the Cherry. He is Odysseus in his parody of Homer and Joyce. Its PG-13. Parallel to this plot is the story of a spy, Butch Lautsky. Its a spy novel parody defending the FBI. Universal and evolutionary, the congress can be a lifeguard. Article I, section 10 of the US Constitutional Law is used to attempt to void state government regulations, not federal regulations. Article I of the constitutional law controls congress, not contracts and regulations, unless done right. Republicans like to void regulations, and democrats like to protect people with laws, just like in The Jungle. But this is only half of the story, worth many billions of dollars. Now its landlords and walland state contractors. EPA 2015 voided federal regulations. This is the opposite of the 1960s On the Road. This is, at times, intimate. I have found a flaw in the constitution itself. Futher information are found in the website [www.waterinthebelly.com](http://www.waterinthebelly.com)

How We Are Hungry Dave Eggers 2010-05-28 How We Are Hungry is a gripping, lyrical and soulful collection of stories from the acclaimed author of A Heartbreaking Work of Staggering Genius. Ranging from a doomed Irish setter's tales of running and jumping ("After I Was Thrown in the River and Before I Drowned") to a bitterly comic meditation on

suicide and friendship ("Climbing to the Window, Pretending to Dance"), and from the Egyptian desert to the asphalt of Interstate 5, these stories are Eggers at his finest. By turns devastating, clear-eyed and funn - incredibly funny - this collection is a marvel.

*Who Loves Ya, Baby?* Gemma Bruce 2012-03-01 Let's Get Lucky Catch and cuff a perp without batting a false eyelash? No problem for NYPD undercover cop Julie Excelsior. But her big mouth just got her demoted. . .seems that the department doesn't appreciate a whistle-blower. Well, Julie is too restless to park her long legs under a desk and twiddle her thumbs. She might break a nail--or somebody's head--just to relieve the boredom. Hello? Is anybody listening? That's it. I quit. I'm moving on. Time to say goodbye to the grit and grime of the precinct house, and hello to the simple life upstate where her Uncle Wes, that old practical joker, just died and left her a house on twenty acres. Plus about a million chickens. And the little town of Excelsior Falls has a few other surprises in store. . .like Julie's childhood pal Cas Reynolds, who grew up to be quite a man. As in six foot two of buff-a-licious fantasy fun. And he's the sheriff. Who could ask for anything more? How about a hidden treasure? Yes, Uncle Wes hid something wonderful for his near and dear ones to find but exactly what it is and where it is, no one really knows. Everybody's got a clue but nobody's talking--and the whole damn town is digging up her north forty inch by inch, hoping to get lucky. But Cas and Julie already have, what with toe-curling kisses and tangling up the sheets. In fact, they're having the hottest time of their lives. . . Gemma Bruce is the alter ego of a popular mystery writer, who loves the excitement of a "who done it" and the sizzle of romance. After a career in dance, theater, television and film, performing before packed houses even on a bad-hair-bloat day, Gemma now goes one on one with her computer screen to create the characters and stories she loves. Her laptop has never once made a snide remark about her hair (though it has eaten a few sentences that made it blush).

**Knocking on Heaven's Door** Sharman Apt Russell 2016-01-12 On a hotter and more volatile earth in the twenty-third century, humans like Clare and Jon live in utopia, hunting and gathering in small tribal bands, engaged in daily art and ritual, reunited with old friends like the shaggy mammoth and giant ground sloth. Even better, they still have solar-powered laptops and can communicate with each other around the world. The understanding of physics has also advanced. When scientists first cloned extinct species from the Pleistocene, they discovered that many of them were telepathic—that consciousness travels in waves. For most people, animism has become the preferred religion, a panpsychism compatible with the laws of a fractal holographic universe. As Clare tells one of her students, the return to an older, Paleolithic lifestyle is “one of humanity’s greatest achievements.” It’s too bad that utopia had to come at such a cost: a genetically engineered super-virus that wiped out most of earth’s human population. Humanity was shaken by that event, and humanity vowed to change. Now, on the 150th anniversary of that catastrophe, a small group of men and women—as well as a smarter-than-average dire wolf and saber-toothed cat—are suddenly faced with decisions in which the stakes are higher than ever before. Will earth repeat the cycle of unbridled hubris? Or is humanity’s destiny even stranger than that? Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a New York Times bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.

**Living in the Land of Limbo** Carol Levine 2014-03-15 Living in the Land of Limbo is the first anthology of short stories and poems about family caregivers. These men and women find themselves in "limbo," as they struggle to take care of a family member or friend in the uncertain world of chronic illness. The authors explore caregivers' experiences as they deal with family conflicts, the complexities of the health care system, and the impact of their choices on their lives and the lives of others. The book includes selections devoted to caregivers of aging parents; husbands and wives; ill children; and relatives, lovers, and friends. A final section is devoted to paid caregivers and their clients. Among the conditions that form the background of the selections are dementia, HIV/AIDS, mental illness, multiple sclerosis, and pediatric cancer. Many of the authors are well-known poets and writers, but others have not been published in mainstream media. They represent a range of cultural backgrounds. Although their works approach caregiving in very

different ways, the authors share a commitment to emotional truth, unvarnished by societal ideals of what caregivers should feel and do. These stories and poems paint profoundly moving and revealing portraits of family caregivers.

Turning sixty is not for the faint hearted. There are issues ahead. The first thing we all face is taking care of aging parents or what the author refers to as helping your parents check out. Then there are our own Boomer health issues including cataracts and prostate cancer. You likely think there is nothing funny about these topics but the quirky economist author finds humor in all of our aging experiences. This book covers Boomer issues, all in the

context of our Boomer culture. We Boomers thought we would be young forever. Maybe that is why it is so amusing.
