Texas Gothic James Pylant 2014-10-01 It began in the 1800s. In the Texas town of Mineral Wells, people drinking the strange-tasting water claimed to be cured of insanity, rheumatism, and terminal illness. Discovery of the phenomenon beguiled thousands of tourists, curiosity seekers, and the afflicted who desperately sought cures. Yet, the town that promoted its “crazy water” attracted eccentric citizens, including wealthy Will and Anna Johnson, who, unable to cope with the deaths of their children, spared no expense in preserving the bodies for entombment in a mausoleum; paperclip inventor David Galbraith, the builder of a house in the shape of a honeycomb; and influential mortician Bob Beetham, who gained power by keeping the town’s secrets. In *Texas Gothic*, author James Pylant also uncovers the mysterious life of beautiful and ambitious Mineral Wells resident Corinne Griffith. After becoming a famous star of the silent screen and one of America’s richest women, she made a shocking courtroom claim that she was not the “real” Corinne Griffith. Under the looming 14-story Baker Hotel, Mineral Wells thrived with visits from movie stars; yet, the “crazy water” beckoned exploiters and predators. *Texas Gothic* reveals true tales of the town’s forgotten past: murder, white slavery, prostitution, and mysterious deaths.

**Preserved** Dean G. Lampros 2024-03-26 A spirited look at how funeral homes impacted American consumerism, the built environment, and national identities. Funeral homes—those grand, aging mansions

repurposed into spaces for embalming, merchandising, funeral services, and housing for the funeral director and their family—are immediately recognizable features of the American landscape, and yet the history of how these spaces emerged remains largely untold. In *Preserved*, Dean Lampros uses the history of this uniquely American architectural icon to explore the twentieth century's expanding consumer landscape and reveal how buildings can help construct identities. Across the United States, Lampros traces the funeral industry's early twentieth-century exodus from gloomy downtown undertaking parlors to outmoded Victorian houses in residential districts. As savvy retailers and accidental preservationists, funeral directors refashioned the interiors into sumptuous retail settings that stimulated consumer demand for luxury burial goods. These spaces allowed for more privacy and more parking, and they helped turn Americans away from traditional home funerals toward funeral homes instead. Moreover, by moving into neighborhoods that were once the domain of white elites, African American funeral directors uplifted their industry and altered the landscape of white supremacy. The funeral home has tracked major changes in American culture, including an increased reliance on the automobile and the rise of consumer culture. *Preserved* offers an in-depth cultural history of a space that is both instantly familiar and largely misunderstood.

**Middletown Pacemakers** Ron Roberson 2002 Hot Rodding began in Southern California in the 1930s and had spread throughout the United States by the mid 1950s, spawning the sport of drag racing and the advent of the Detroit "muscle cars" of the '60s and '70s. Hot Rod Magazine and the National Hot Rod Association promoted the formation of responsible car clubs to combat the delinquent reputation of hot rodders, earned through illegal street races and Hollywood's portrayal in "B" movies. And thus were born the Middletown Pacemakers in 1951. The Pacemakers brought southern Ohio its first reliability runs (1952),

custom auto shows (1954), and drag racing competitions-setting national records (1958, '63, '64) and winning national championships (1963, '64, '65). When the hot rodders were not busy upgrading their drive train for more horsepower or "chopping" and "channeling" for improved performance, they could often be seen on the streets of Middletown feeding expired parking meters or rescuing motorists whose cars had broken down or run out of gas. By 1966, as was the fate of so many hot rod clubs, the mass production of Detroit muscle cars ushered the Pacemakers to fold.

The Venture Alchemists Rob Lalka 2024-05-14 We once idolized tech entrepreneurs for creating innovations that seemed like modern

miracles. Yet our faith has been shattered. We now blame them for spreading lies, breaking laws, and causing chaos. Yesterday's Silicon Valley darlings have become today's Big Tech villains. Which is it? Are they superheroes or scoundrels? Or is it more complicated, some blend of both? In *The Venture Alchemists*, Rob Lalka demystifies how tech entrepreneurs built empires that made trillions. Meta started as a cruel Halloween prank, Alphabet began as a master's thesis that warned against corporate deception, and Palantir came from a campus controversy over hateful speech. These largely forgotten origin stories show how ordinary fears and youthful ambitions shaped their ventures—making each tech tale relatable, both wonderfully and tragically human. Readers learn about the adversities tech entrepreneurs overcame, the troubling tradeoffs they made, and the tremendous power they now wield. Using leaked documents and previously unpublished archival material, Lalka takes readers inside Big Tech's worst exploitations and abuses, alongside many good intentions and moral compromises. But this story remains unfinished, and *The Venture Alchemists* ultimately offers hope from the people who, decades ago, warned about the risks of the emerging Internet. Their insights illuminate a path toward more responsible innovations, so that technologies aren't dangerous weapons but valuable tools that ensure progress, improve society, and enhance our daily lives.

*Industrial Strength Bluegrass* Fred Bartenstein 2021-01-25 In the twentieth century, Appalachian migrants seeking economic opportunities relocated to southwestern Ohio, bringing their music with them. Between 1947 and 1989, they created an internationally renowned capital for the thriving bluegrass music genre, centered on the industrial region of Cincinnati, Dayton, Hamilton, Middletown, and Springfield. Fred Bartenstein and Curtis W. Ellison edit a collection of eyewitness narratives and in-depth analyses that explore southwestern Ohio's bluegrass musicians, radio broadcasters, recording studios, record labels, and performance venues, along with the music's contributions to religious activities, community development, and public education. As the bluegrass scene grew, southwestern Ohio's distinctive sounds reached new fans and influenced those everywhere who continue to play,

produce, and love roots music. Revelatory and multifaceted, *Industrial Strength Bluegrass* shares the inspiring story of a bluegrass hotbed and the people who created it. Contributors: Fred Bartenstein, Curtis W. Ellison, Jon Hartley Fox, Rick Good, Lily Isaacs, Ben Krakauer, Mac McDivitt, Nathan McGee, Daniel Mullins, Joe Mullins, Larry Nager, Phillip J. Obermiller, Bobby Osborne, and Neil V. Rosenberg.
