Glitter and Glue Kelly Corrigan 2014-02-04 NEW YORK TIMES BESTSELLER • A memoir from the author of *The Middle Place* about mothers and daughters—a bond that

can be nourishing, exasperating, and occasionally divine. When Kelly Corrigan was in high school, her mother neatly summarized the family dynamic as “Your father’s the glitter but I’m the glue.” This meant nothing to Kelly, who left childhood sure that her mom—with her inviolable commandments and proud stoicism—would be nothing more than background chatter for the rest of Kelly’s life, which she was carefully orienting toward adventure. After college, armed with a backpack, her personal mission statement, and a wad of traveler’s checks, she took off for Australia to see things and do things and Become Interesting. But it didn’t turn out the way she pictured it. In a matter of months, her savings shot, she had a choice: get a job or go home. That’s how Kelly met John Tanner, a newly widowed father of two looking

for a live-in nanny. They chatted for an hour, discussed timing and pay, and a week later, Kelly moved in. And there, in that house in a suburb north of Sydney, 10,000 miles from the house where she was raised, her mother's voice was suddenly everywhere, nudging and advising, cautioning and directing, escorting her through a terrain as foreign as any she had ever trekked. Every day she spent with the Tanner kids was a day spent reconsidering her relationship with her mother, turning it over in her hands like a shell, straining to hear whatever messages might be trapped in its spiral. This is a book about the difference between travel and life experience, stepping out and stepping up, fathers and mothers. But mostly it's about who you admire and why, and how that changes over time. Praise for Glitter and Glue "I loved this book, I was moved by this book, and now I will share this book with my own mother—along with my renewed appreciation for certain debts of love that can

never be repaid."—Elizabeth Gilbert, New York Times bestselling author of *Eat, Pray, Love* "Kelly Corrigan's thoughtful and beautifully rendered meditation invites readers to reflect on their own launchings and homecomings. I accepted the invitation and learned things about myself. You will, too. Isn't that why we read?"—Wally Lamb, New York Times bestselling author of *We Are Water* "Kelly Corrigan is no stranger to mining the depths of her heart. . . . Through her own experience of caring for children, she begins, for the first time, to appreciate the complex woman who raised her."—O: The Oprah Magazine The Future of Happiness Amy Blankson 2017-04-11

Technology, at least in theory, is improving our productivity, efficiency, and communication. The one thing it's not doing is making us happier. We are experiencing historically high levels of depression and dissatisfaction. But we can change that. Knowing that technology is here to stay and will continue to evolve in form

and function, we need to know how to navigate the future to achieve a better balance between technology, productivity, and well-being. Technology can drive—not diminish—human happiness. In *The Future of Happiness*, author Amy Blankson, cofounder of the global positive psychology consulting firm GoodThink, unveils five strategies successful individuals can use, not just to survive—but actually thrive—in the Digital Age: Stay Grounded to focus your energy and increase productivity Know Thyself through app-driven data to strive toward your potential Train Your Brain to develop and sustain an optimistic mindset Create a Habitat for Happiness to maximize the spaces where you live, work, and learn Be a Conscious Innovator to help make the world a better place By rethinking when, where, why, and how you use technology, you will not only influence your own well-being but also help shape the future of your community. Discover

how technologies can transform the idea of "I'll be happy when . . ." to being happy now.

A Year in the National Parks Stefanie Payne 2018-05 On January 1 of 2016, Stefanie Payne, a creative professional working at NASA Headquarters, and Jonathan Irish, a photographer with National Geographic, left their lives in Washington, D.C. and hit the open road on an expedition to explore and document all 59 of America's national parks during the centennial celebration of the U.S. National Park Service - 59 parks in 52 weeks - the Greatest American Road Trip. Captured in more than 300,000 digital photographs, written stories, and videos shared by the national and international

media, their project resulted in an incredible view of America's National Park System seen in its 100th year. 'A Year in the National Parks, The Greatest American Road Trip' is a gorgeous visual journey through our cherished public lands, detailing a rich tapestry of what makes each park special, as seen along an epic journey to visit them all within one special celebratory year. Along the Florida Trail 2003 Stretching more than 1,200 miles across the Sunshine State, the green ribbon of the Florida National Scenic Trail connects the silent depths of the Everglades cypress swamps with the crystalline white sand beaches of Pensacola. Illustrated with fetching full-color photographs, this volume weaves a narrative of day hikes and backpacking trips with snippets of the natural and cultural history that define the essence of Florida.

A Journey to Other Worlds

John Jacob Astor 2018-08-19 A Journey to Other Worlds is a tale about life in the year 2000 on the planets Saturn and Jupiter. Space travel is achieved through apery, an anti-gravitational energy force. Jupiter proves to be a jungle world, with flesh-eating plants, vampire bats, giant snakes and mastodons, and flying lizards. Saturn, in contrast, is an ancient world of silent spirits. The spirit beings provide the explorers with foresight of their own deaths.

Paddling the Everglades Wilderness Waterway Holly Genzen 2011-08-09 For anyone

who has ever dreamed of truly experiencing America's unique Everglades National Park, there is only one way: by canoe or kayak. And Paddling the Everglades Wilderness Waterway is the all-in-one guide for safe adventure on this spectacular 99-mile route. No time for such days-long expeditions? No matter. Authors Holly Genzen and Anne McCrary Sullivan entice with their favorite day- and overnight trips from various Everglades departure points. Having spent years exploring this maritime labyrinth, the authors now share their intimate knowledge of historic Everglades rivers and bays, the endless horizon of its Gulf Coast, the eerie beauty of its mangrove forests, and the secrets of ancient tribes and early-American pioneers who left their distinctive traces. Descriptions of wildlife abound (the birds! the alligators!), as do the details of exquisite flora that flourishes here. But Genzen and Sullivan do not skimp on practicalities nor on threats to this environment.

Safety, weather, insects, food, fresh water, and camping on rustic "chickee" platforms stilted above the rivers all earn many pages here. As does what lies in store for the timeless but fragile Everglades ecology. This book is a treasure trove for all paddlers—from novices to champions.

The Hour of Fate Susan

Berfield 2020-05-05 A riveting

narrative of Wall Street

buccaneering, political

intrigue, and two of American

history's most colossal

characters, struggling for

mastery in an era of social

upheaval and rampant

inequality. It seemed like no

force in the world could slow J.

P. Morgan's drive to power. In

the summer of 1901, the

financier was assembling his

next mega-deal: Northern

Securities, an enterprise that

would affirm his dominance in

America's most important

industry—the railroads. Then, a

bullet from an anarchist's gun

put an end to the business-

friendly presidency of William

McKinley. A new chief

executive bounded into office:

Theodore Roosevelt. He was

convinced that as big business

got bigger, the government had

to check the influence of the

wealthiest or the country would

inch ever closer to collapse. By

March 1902, battle lines were

drawn: the government sued

Northern Securities for antitrust violations. But as the case ramped up, the coal miners' union went on strike and the anthracite pits that fueled Morgan's trains and heated the homes of Roosevelt's citizens went silent. With millions of dollars on the line, winter bearing down, and revolution in the air, it was a crisis that neither man alone could solve. Richly detailed and propulsively told, *The Hour of Fate* is the gripping story of a banker and a president thrown together in the crucible of national emergency even as they fought in court. The outcome of the strike and the case would change the course of our history. Today, as the country again asks whether saving democracy means taming capital, the lessons of Roosevelt and Morgan's time are more urgent than ever. Winner of the 2021 Theodore Roosevelt Association Book Prize Finalist for the Presidential Leadership Book Award

Best. State. Ever. Dave Barry
2017-09-05 A New York Times

bestseller—a brilliantly funny exploration of the Sunshine State from the man who knows it best: Pulitzer Prize winner Dave Barry. We never know what will happen next in Florida. We know only that, any minute now, something will. Every few months, Dave Barry gets a call from some media person wanting to know, "What the hell is wrong with Florida?" Somehow, the state's acquired an image as a subtropical festival of stupid, and as a loyal Floridian, Dave begs to differ. Join him as he goes in hunt of the legendary Skunk Ape; hobnobs with the mermaids of Weeki Wachee Springs; and visits Cassadaga, the psychic capital of the world, to have his dog's aura read (apparently, she's "very spiritual"). Hitch a ride for the non-stop thrills of alligator-wrestling ("the gators display the same fighting spirit as a Barcalounger"), the hair-raising spectacle of a clothing-optional bar in Key West, and the manly manliness of the Machine Gun Experience in Miami. It's the most hilarious

book yet from “the funniest damn writer in the whole country” (Carl Hiaasen, and he should know). By the end, you'll have to admit that whatever else you might think about Florida—you can never say it's boring.

Have Kid, Will Travel Claire Tristram 1997 Invaluable advice to parents traveling with children covers just about anything a parent might need to know to make the journey joyful for all. Before author Claire Tristram became a mother, she was a well-traveled writer. After little Lucille came along, the two traveled together. Now the Tristrams (mother and daughter) share what they've learned with all first-time parents or anyone who plans to tour with a tot. *Ditch That Textbook* Matt Miller 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting “by the textbook” implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook

assumptions about learning In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

The Chautauquan Theodore L. Flood 1887

Missouri Landscapes Jon L. Hawker 1992 “In this magnificent book, Oliver Schuchard provides more than sixty-five exquisite black-and-white photographs spanning his thirty-eight years of photography. In addition, he explains the aesthetic rationale and techniques he used in order to produce these photographs, emphasizing the profound differences between, yet necessary interdependence of, craft and content. Although Schuchard believes that craft is important, he maintains that the idea behind the photograph

and the emotional content of the image are equally vital and are, in fact, functions of one another. The author also shares components of his life experience that he believes helped shape his development as an artist and a teacher. He chose the splendid photographs included in this book from among nearly 5,000 negatives that had been exposed all over the world, from Missouri to Maine, California, Alaska, Colorado, France, Newfoundland, and Hawaii, among many other locations. Approximately 250 negatives survived the initial review, and each of those was printed before a final decision was made on which photographs were to be featured in the book. The final choices are representative of Schuchard's work and serve to substantiate his belief that craft, concept, and self must be fully understood and carefully melded for a good photograph to occur. This amazing work by award-winning photographer Oliver Schuchard will be treasured by professional and

amateur photographers alike, as well as by anyone who simply enjoys superb photography."--Publishers website.

Paving Paradise Craig Pittman
2010-05-25 Florida possesses more wetlands than any other state except Alaska, yet since 1990 more than 84,000 acres have been lost to development despite presidential pledges to protect them. How and why the state's wetlands are continuing to disappear is the subject of *Paving Paradise*. Journalists Craig Pittman and Matthew Waite spent nearly four years investigating the political expedience, corruption, and negligence on the part of federal and state agencies that led to a failure to enforce regulations on developers. They traveled throughout the state, interviewed hundreds of people, dug through thousands of documents, and analyzed satellite imagery to identify former wetlands that were now houses, stores, and parking lots. Exposing the unseen environmental consequences of rampant sprawl, Pittman and

quiet. The other island residents include the surfmen--the African American crew of the nearby U.S. Life-Saving Station--and soon Nathan is lending an extra hand to these men as they rescue sailors from sinking ships. Working and learning alongside the courageous surfmen, Nathan begins to dream of becoming one himself. But the reality of post-Civil War racism starts to show itself as he gradually realizes the futility of his dream. And then another dream begins to take shape, one that Nathan refuses to let anyone take from him.
