

Journeys Into Palliative Care Journeys Into Palliative Care

Stepping Into Palliative Care 1 Jo Cooper 2006 Aimed at those working in community care, including doctors, nurses, nursing students and social workers, this book covers the value of teamwork, stress issues in palliative care, communication, ethical dilemmas, transcultural and ethnic issues at the end of life, and sexuality in palliative care.

Oxford Textbook of Palliative Care for Children Ann Goldman 2012-05-24 The first edition of this book was the first authoritative, systematic and comprehensive text to define the increasingly important and evolving specialty of paediatric palliative care. It explores both the clinical aspects and the multidimensional and holistic nature of care for the dying child, based on the knowledge that all human experience has a physical, emotional, psychological and spiritual impact. The book covers ways of providing support in all of these areas both for the child, families, and carers, recognising the importance of teamwork and taking an evidence-based approach. The Oxford Textbook of Palliative Care for Children is about the care of children for whom cure of their underlying disease is not possible. It encompasses the physical management of symptoms such as pain and nausea, as well as social issues such as accessing appropriate education, emotional issues such as techniques for communication, and spiritual issues such as feelings of guilt and isolation. The book suggests that if we are to maintain the quality of life for a child it is essential to recognise all these dimensions and try to address them. This can only be done by recognising the skills of a wide range of professionals and working together in ways that are not always intuitive to any one discipline. It explores the multidimensional and holistic nature of care for the dying child. Those working in paediatric palliative care recognise that all human experience has emotional, psychological and spiritual impact as well as physical, and this book offers the essential information needed for those involved in paediatric care to find ways of providing support in all of these areas. Comprehensive in scope, exhaustive in detail, and definitive in authority, this second edition has been thoroughly updated to cover new practices, current epidemiological data and the evolving models that support the delivery of palliative medicine to children. Paediatric palliative care is now developing in countries with differing health care systems, and being adapted to suit individual illnesses and the varying resources and geography in different parts of the world. This book is an essential resource for anyone who works with children worldwide.

Our Changing Journey to the End Christina Staudt 2013-11-12 This novel, cross-disciplinary collection explains how dying, death, and grieving have changed in America, for better or worse, since the turn of the millennium. What does dying with dignity mean in a diverse society with rapidly advancing technology, an aging population, and finite resources? In this fascinating collection, scholars from across the nation illuminate the remarkable changes that have taken place in recent years, are now underway, and loom on the horizon as they lead readers on an exploration of the ways Americans think about and handle dying and death. Volume 1, New Paths of Engagement, addresses changes in the circumstances and expressions of death, dying, and grief in 21st-century America. Volume 2, New Venues in the Search for Dignity and Grace, delves into the challenges inherent in creating a medical and social system that allows for an optimal end-of-life experience for all and proposes ways in which society can be reshaped to move toward that ideal.

Embracing the End of Life Patt Lind-Kyle 2017-09-08 Explore the Resistance to Death, and Awaken More Fully to Life Death is simply one more aspect of being a human being, but in our culture, we've made it a taboo. As a result, most of us walk through life with conscious or unconscious fears that prevent us from experiencing true contentment. Embracing the End of Life invites you to lean into your beliefs and questions about death and dying, helping you release tense or fearful energy and awaken to a more vital life now. Preparing mentally, emotionally, and spiritually for this inevitable transition provides improved clarity and strength. This book shares the idea of death as a journey of three steps—resistance, letting go, and transcendence. With dozens of exercises, practices, and meditations, author Patt Lind-Kyle helps you experience your truest, most expansive self. Exploring multiple aspects of life and death—with everything from chakras and the Enneagram to living wills and health care directives—this book is meant to help you unwind the challenge of death and discover the truth of your own path to inner freedom. Praise: "The fear of dying keeps countless people from living fully—as well as keeping countless others trapped in endless suffering. Embracing the End of Life will help all of us prepare joyously for the inevitable."—Christiane Northrup, MD, New York Times bestselling author of Goddesses Never Age Winner of a 2018 Gold IPPY Award

The Final Journey Susan Pattinson 2011

Journeys to Home Janna Benson Kontz 2013 Author Janna Benson Kontz took the job of hospice chaplain as a stopgap, filling the time until she was called to serve at a church. She had no idea that hospice work would turn out to be her true calling. Journeys to Home presents a poignant trip across the prairie and into the heart of a hospice chaplain. These powerful stories of spirituality and faith seek to touch your heart and soul, while Kontz's simple photos capture the essence of being at peace with nature and oneself. Her stories about patients and families who have changed her deeply can draw you into their lives and change your idea of what the end of this life might look like. She shares the rhythm of the prairie in "Road Warrior," "Lyle," and "Mike" and the strength and faith of her patients in the pieces about "Fern," "Bonnie," and "Ole." Journeys to Home takes a rare look inside the final days and moments of those who are at the end of their lives and confronts the realization that death is not a disaster to be feared but a journey to home.

HELPER'S JOURNEY DALE G. LARSON 2020

Palliative Care Nursing Sheila Payne 2008-08-01 "It has been a true pleasure to have had the opportunity to peruse the second edition of Palliative Care Nursing.... This book, authored predominately by UK-based experts, succeeds in presenting sophisticated thoughts in readily accessible language... Each chapter begins with a summary of key points, with both classic and new relevant literature well integrated into the text. I have also been particularly impressed with the editors' final chapter, in which they synthesize a number of crucial issues for the future development of palliative care... this second edition makes a significant contribution to both the palliative care literature as well as to nursing literature." Carol Tishelman, Karolinska Institutet, Stockholm, Sweden "I find Palliative Care Nursing a very attractive book for nurses but also for other disciplines to learn about nursing and to learn about palliative care. The book is voluminous, informative and educationally well constructed. Frameworks and models in this book will give nurses the opportunity to make up their own process to offer support and be a carer for the incurably ill person and his/her family as a skilled companion.... This book gives the possibility for nurses to spread one clear voice about palliative care nursing. Congratulations to all the authors...." Martine De Vlieger,

Palliatieve Hulpverlening Antwerpen v.z.w., University of Antwerp, Belgium "This book should be compulsory reading for nurses and other health care workers who are involved in the care of people in the final stages of life. It provides a comprehensive account of the major issues (clinical, professional, sociological and political) that confront contemporary palliative care while also offering strategies to move forward. The 'real world' of palliative care is described and critiqued and the rhetoric is dispensed with. This book is a vital resource for nursing practice, learning and teaching." Associate Professor, Peter Hudson (RN, PhD). Director of the Centre for Palliative Care Research and Education, St Vincent's Hospital and The University of Melbourne, Australia. "This is an excellent book for anyone completing either an academic qualification or who wants to understand the who, what and where of palliative care both in the UK and abroad. Its detail is balanced with case studies and practical illustrations that bring the academic nature of its writing to life...For reference purposes for anyone completing academic work it has to be an absolute must." Nursing Times The second edition of this innovative textbook has been extensively revised and updated to reflect new global developments in palliative care. This textbook reviews current research and examines the evidence base for palliative care policy and practice. Over a third of the chapters are newly commissioned from leading international contributors. Building on the widely acclaimed original edition, the textbook focuses on palliative care for adults in a variety of care environments. The first three sections use a novel framework – the trajectory of life-limiting illness – to cover key issues including: What happens to people as they become ill How individuals cope as they near death and are dying How families and friends deal with bereavement and loss The final section addresses contemporary issues in nursing and inter-professional working. The book is written with helpful overviews and in an informative and reader-friendly style. There are numerous examples of clinical situations and research studies which are examined in depth to illustrate debates in palliative care. The textbook spans the range of end-of-life contexts which are of relevance to practitioners, educationalists and researchers. Palliative Care Nursing is essential reading for post-qualification nursing students and all nurses and health and social care professionals who provide care to people with advanced illness and those who are near the end of life. This broad ranging critical text will be invaluable to students and practitioners working with people and their families near the end of life.

Journey'S End Victoria Brewster 2017-07-20 In Journey's End, many and varied collaborators write about death, dying, and the end of life. We attempt to describe real life issues and circumstances, and we discuss

ways to proactively deal with them. Useful training, resource, and reference material is also included. Death, dying, and end of life are topics many prefer to avoid. This book suggests that we benefit from having frank discussions, living life to the fullest, and planning for our own journey's end, whenever that may be. Everyone who is born eventually will die, whether or not we want to embrace that fact. **** Though few of us know when we will die, we and our family or friends can be well prepared. We can have discussions and create written directives for what we want, if we are unable to verbally state them ourselves. Do we want life support? Do we want interventions that may or may not have any benefit to our quality of life if we are in the hospital or in an accident? Do we want to be involved in planning our funeral, memorial, or celebration of life? The submissions within are from professionals in the field of death and bereavement support and from laypeople, all of whom share stories of dying family members, friends, clients, and patients. Julie and Victoria, the coauthors of this book, also share stories from their personal and professional experiences. Journey's End is a broadly comprehensive book about death, dying, and the end of life.

Life after the Diagnosis Steven Pantilat 2017-02-14 A renowned expert in palliative care, who is featured in the Netflix documentary, End Game, Dr. Pantilat delivers a compassionate and sensitive guide to living well with serious illness. In Life After the Diagnosis, Dr. Steven Z. Pantilat, a renowned international expert in palliative care demystifies the medical system for patients and their families. He makes sense of what doctors say, what they actually mean, and how to get the best information to help make the best medical decisions. Dr. Pantilat covers everything from the first steps after the diagnosis and finding the right caregiving and support, to planning your future so your loved ones don't have to. He offers advice on how to tackle the most difficult treatment decisions and discussions and shows readers how to choose treatments that help more than they hurt, stay consistent with their values and personal goals, and live as well as possible for as long as possible.

Stepping into Palliative Care Jo Cooper 2017-11-22 The second edition of this highly successful text has been greatly expanded and updated, and is now available in two companion volumes. Stepping into Palliative Care 2 focuses on symptom management, emergencies, bereavement and spirituality. This practical guide with numerous examples, illustrations and thorough references, includes boxes, tables, figures, self-assessment questions, points for reflection and case studies to aid comprehension. The clear layout and straightforward approach is ideal for all those working in community care, including nurses, nursing students, doctors and social workers, and those already involved to some extent in palliative care. *Oxford Textbook of Palliative Medicine* Geoffrey W. C. Hanks 2011-07-21 Emphasising the multi-disciplinary nature of palliative care, the fourth edition of this text also looks at the individual professional roles that contribute to the best-quality palliative care.

Hospice and Palliative Care Stephen R. Connor 2017-07-06 The third edition of Hospice and Palliative Care is the essential guide to the hospice and palliative care movement both within the United States and around the world. Chapters provide mental-health and medical professionals with a comprehensive overview of the hospice practice as well as discussions of challenges and the future direction of the hospice movement. Updates to the new edition include advances in spiritual assessment and care, treatment of prolonged and complicated grief, provision of interdisciplinary palliative care in limited-resource settings, significant discussion of assisted suicide, primary healthcare including oncology, and more. Staff and volunteers new to the field along with experienced care providers and those using hospice and palliative care services will find this essential reading.

Supporting Older Persons on Their Aging Journey Idevania Costa 2024-08-12 Supporting Older Persons on Their Aging Journey provides an emancipatory, holistic, patient-centred, and decolonizing approach to nursing practice for older persons and caregivers, focusing on their unique needs and experiences. Providing a general overview of aging and well-being, this text identifies trends in present nursing practice, discusses the future of an aging population, and seeks to create opportunities for individuals to live well with chronic conditions. With a focus on collaboration and context as the keys to providing quality care that promotes health, well-being, and safety, the chapters discuss prevention strategies for successfully navigating life transitions. The authors encourage learners to creatively and collaboratively consider opportunities to support older people, their families, and caregivers so they may thrive, flourish, maintain

their dignity, and fully define their own quality of life as they navigate the challenges of aging and illness. This vital text is essential for nursing programs in universities and colleges within Canada, intended for courses on older persons, aging, or gerontological nursing.

In Shock Rana Awdish 2017-10-24 A riveting first-hand account of a physician who's suddenly a dying patient, *In Shock* "searches for a glimmer of hope in life's darkest moments, and finds it." —The Washington Post Dr. Rana Awdish never imagined that an emergency trip to the hospital would result in hemorrhaging nearly all of her blood volume and losing her unborn first child. But after her first visit, Dr. Awdish spent months fighting for her life, enduring consecutive major surgeries and experiencing multiple overlapping organ failures. At each step of the recovery process, Awdish was faced with something even more unexpected: repeated cavalier behavior from her fellow physicians—indifference following human loss, disregard for anguish and suffering, and an exacting emotional distance. Hauntingly perceptive and beautifully written, *In Shock* allows the reader to transform alongside Awdish and watch what she discovers in our carefully-cultivated, yet often misguided, standard of care. Awdish comes to understand the fatal flaws in her profession and in her own past actions as a physician while achieving, through unflinching presence, a crystalline vision of a new and better possibility for us all. As Dr. Awdish finds herself up against the same self-protective partitions she was trained to construct as a medical student and physician, she artfully illuminates the dysfunction of disconnection. Shatteringly personal, and yet wholly universal, she offers a brave road map for anyone navigating illness while presenting physicians with a new paradigm and rationale for embracing the emotional bond between doctor and patient.

Textbook of Palliative Care Communication Elaine Wittenberg 2015-10-23 The Textbook of Palliative Care Communication is the authoritative text on communication in palliative care, providing a compilation of international and interdisciplinary perspectives. The volume was uniquely developed by an interdisciplinary editorial team to address an array of providers including physicians, nurses, social workers, and chaplains, and unites clinicians with academic researchers interested in the study of communication. By featuring practical conversation and curriculum tools stemming from research, this text integrates scholarship and inquiry into translatable content that others can use to improve their practice, teach skills to others, and engage in patient-centered communication. The volume begins by defining communication, explicating debatable issues in research, and highlighting specific approaches to studying communication in a palliative care context. Chapters focus on health literacy and cultural communication, patient and family communication, barriers and approaches to discussing palliative care with specific patient populations, discussing pain, life support, advance care planning, and quality of life topics such as sexuality, spirituality, hope, and grief. Team communication in various care settings is outlined and current research and education for healthcare professionals are summarized. Unique to this volume are chapters on conducting communication research, both qualitatively and quantitatively, to promote further research in palliative care.

A Journey in the Moon Balloon Joan Drescher 2015-03-21 Take a journey in a hot air balloon to see the world differently. Open your heart, drop your fears, relax and get in touch with your feelings. This colorfully illustrated interactive journal with a delightful story line has been used to help children of all ages express their emotions and feel better about themselves and the world through writing, drawing, and symbols. This fully updated and expanded edition is overflowing with new stories and activities to unleash creative expression and allow images to do the talking. *A Journey in The Moon Balloon®* is an indispensable tool for parents, teachers, counsellors, art therapists, health care professionals and all those concerned with bringing emotional healing to children.

JOURNEYS INTO PALLIATIVE CARE Christina Mason 2002 `The combined practice area of the contributors to this book include social work, psychotherapy, sociology, counselling psychology, creative writing, nursing, and medicine. Several of the authors have multiple professions, and have come to palliative care later in their careers. Indeed, the combined skill of this group is impressive. Each chapter is unique and each story worthy in its own right. The commonalities are remarkable also. I recommend it to all palliative care professionals, when feeling a little-jaded about what we are doing and being swept along with the winds of changing technology and evidenced based practice, and to other health-care workers who feel an inclination to bring a little humanity to their care'. -Omega Vol 51 (1) 77-86, 2005 `This book offers unique

way of looking at caring for palliative parents by using the influence of the self. It also offers an opportunity for reflection how our experiences can enrich the experience of patient's faced with the prospect of dying. Professionals who enjoy reading stories will thoroughly enjoy this book.' -International Journal of Palliative Nursing `In a way it is surprising that palliative care has not produced more books like this: collections in which those engaged in the daily work of caring for dying and bereaved people share something of their motivations for entering this particular world, their experiences along the way, and their reasons for staying in or quitting it...Christina Mason was right to embark on this project. She has edited a book that deserves to be widely read.' -Palliative Medicine 2003 `This is a delightful book. Although its focus is on professionals working in specialist palliative care, it would be useful for any practitioner wanting to learn more about reflective practice or their motivations for caring.' - Journal of Community Nursing This rich collection of accounts explores the personal and professional experiences of palliative care workers. Contributors from a variety of disciplines associated with care at the end of life - among them social workers, a nurse, a doctor, a counselling psychologist, an academic researcher, a psychotherapist and a creative writing therapist - explain how and why they came to work in palliative care, what they bring to the work and the ways in which it has enriched their own lives. Including descriptive examples of their work with clients and families, they discuss the spiritual needs of patients, how to manage personal boundaries and power relations, the use of narrative and story telling in care work and the impact of working with people who are very ill and grieving on every day life. This thoughtful and positive book presents a variety of experience-based perspectives on working in palliative care. Emphasising the use of self and the importance of reflective practice in professional work, this book will be of relevance to all professionals in medical and social care who want to gain a deeper understanding of their work and of the motivation underlying it.

JOURNEYS TO HOME Janna Benson Kontz 2013-01-09 Author Janna Benson Kontz took the job of hospice chaplain as a stopgap, filling the time until she was called to serve at a church. She had no idea that hospice work would turn out to be her true calling. *Journeys to Home* presents a poignant trip across the prairie and into the heart of a hospice chaplain. These powerful stories of spirituality and faith seek to touch your heart and soul, while Kontz's simple photos capture the essence of being at peace with nature and oneself. Her stories about patients and families who have changed her deeply can draw you into their lives and change your idea of what the end of this life might look like. She shares the rhythm of the prairie in *Road Warrior*, *Lyle*, and *Mike* and the strength and faith of her patients in the pieces about *Fern*, *Bonnie*, and *Ole*. *Journeys to Home* takes a rare look inside the final days and moments of those who are at the end of their lives and confronts the realization that death is not a disaster to be feared but a journey to home. *Music Therapy in Palliative Care* David Aldridge 1999 Within the last decade music therapists have developed their work with people who have life-threatening illnesses and with those who are dying. This book presents some of that work from music therapists working in different approaches, in different countries, showing how valuable the inclusion of music therapy in palliative care has already proved to be. It is important for the dying, or those with terminal illness, that approaches are used which integrate the physical, psychological, social and spiritual dimensions of their being. The contributors to this book emphasize the importance of working not only with the patient but with the ward situation, friends and family members. By offering patients the chance to be creative they become something other than patients - they become expressive beings, and there is an intimacy in music therapy that is important for those who are suffering. Many of the contributors write in their own personal voice, providing a particular insight which will be valuable not only to other music therapists seeking to enrich their own ways of working, but to all those involved in caring for the sick and the dying. Contributors describe their work with both children and adults living with HIV/AIDS, cancer and other chronic degenerative diseases.

A JOURNEY INTO THE HUMAN EXPERIENCE OF INCURABLE DISEASE Malcolm de Roubaix 2023-06-05 Incurable disease is a natural phenomenon, inherent to the human condition. This book critically investigates the uniquely human experience of and response to illness and treatment, which affects the body, the mind, and the very core of human existence and identity. Uncertainties regarding the outcomes of laboratory and other investigations that aid in the diagnosis and assessment of disease exacerbate the apprehension inherent to the diagnosis of incurable disease. An excessively scientific approach may disregard the

suffering patient. The book begins by analysing the nature, meaning and significance of hope in the context of disease, and goes on to reflect on the language of medicine and the role of emotion, ideology and politics in disease treatment and research. The epilogue reflects on healing as distinct from physical cures. Without hope, there is no future; without healing, no holistic recovery. The final chapters are devoted to the end-of-life period of this journey. This book is a revision, extension, and reconceptualization of the original Afrikaans publication Hoop, Heling en Harmonie: Dink Nuut Oor Siekte en Genesing, winner of the 2021 Andrew Murray Prize for Theological Publications.

Spirituality in Hospice Care Andrew Goodhead 2017-12-14 An edited collection that offers personal and professional perspectives of what spiritual care is and how it can be understood in relation to end of life and palliative care. With contributions from doctors, artists, volunteers and more, this book shows how spiritual care is not just the prerogative of chaplains.

Hospice Palliative Home Care and Bereavement Support Lorraine Holtslander 2019-07-17 This book provides an unique resource for registered nurses working in hospice palliative care at home and for the community, outside of acute care settings and also incorporates literature related to palliative care in acute health care settings, as part of the overall services and supports required. Very few resources exist which specifically address hospice palliative care in the home setting, despite the fact that most palliative care occurs outside acute care settings and is primarily supported by unpaid family caregivers. An overview of the concerns for individuals and families, as well as specific nursing interventions, from all ages would be an excellent support for nursing students and practicing registered nurses alike. The book structure begins with a description of the goals and objectives of hospice palliative care and the nursing role in providing excellent supportive care. Chapters include research findings and specifically research completed by the authors in the areas of pediatric palliative care, palliative care for those with dementia, and the needs of family caregivers in bereavement. Interventions developed by the editors are provided in this book, such as the “Finding Balance Intervention” for bereaved caregivers; the “Reclaiming Yourself” tool for bereaved spouses of partners with dementia; and The Keeping Hope Possible Toolkit for families of children with life threatening and life limiting illnesses. The development and application of these theory-based interventions are also highlighted. Videos and vignettes written by family caregivers about what was helpful for them, provide a patient-and family-centered approach./div The book will benefit nursing students, educators and practicing registered nurses by providing information, theory, and evidence from research.

Final Gifts Maggie Callanan 2012-02-14 In this moving and compassionate classic—now updated with new material from the authors—hospice nurses Maggie Callanan and Patricia Kelley share their intimate experiences with patients at the end of life, drawn from more than twenty years’ experience tending the terminally ill. Through their stories we come to appreciate the near-miraculous ways in which the dying communicate their needs, reveal their feelings, and even choreograph their own final moments; we also discover the gifts—of wisdom, faith, and love—that the dying leave for the living to share. Filled with practical advice on responding to the requests of the dying and helping them prepare emotionally and spiritually for death, Final Gifts shows how we can help the dying person live fully to the very end.

On Becoming a Healer Saul J. Weiner 2020-04-07 An invaluable guide to becoming a competent and compassionate physician. Medical students and physicians-in-training embark on a long journey that, although steeped in scientific learning and technical skill building, includes little guidance on the emotional and interpersonal dimensions of becoming a healer. Written for anyone in the health care community who hopes to grow emotionally and cognitively in the way they interact with patients, On Becoming a Healer explains how to foster doctor-patient relationships that are mutually nourishing. Dr. Saul J. Weiner, a physician-educator, argues that joy in medicine requires more than idealistic aspirations—it demands a capacity to see past the "otherness" that separates the well from the sick, the professional in a white coat from the disheveled patient in a hospital gown. Weiner scrutinizes the medical school indoctrination process and explains how it molds the physician's mindset into that of a task completer rather than a thoughtful professional. Taking a personal approach, Weiner describes his own journey to becoming an internist and pediatrician while offering concrete advice on how to take stock of your current development as a physician, how to openly and fully engage with patients, and how to establish clear boundaries that help defuse emotionally charged situations. Readers will learn how to counter judgmentalism, how to make medical decisions that take into account the whole patient, and how to incorporate the organizing principle of healing into their practice. Each chapter ends with questions for reflection and discussion to help personalize the lessons for individual learners.

Child and Family-Centred Healthcare Lynda Smith 2020-11-15 The definitive book on family centred care for health professionals, this popular text has been thoroughly revised in line with contemporary health policy. Including greater emphasis on child-centred care, interprofessional working and care in community settings; it is a valuable resource for all those working with children and families.

The Arc of Conversation Amy Shaw, PA 2025-02-13 Intending to fill an important gap in medical training, this book presents an easy-to-learn, standardized approach to having compassionate and collaborative goals of care conversations with patients and families, a skill that can be difficult for clinicians to learn and that is not part of standard medical education curricula. Developed by a Palliative Care provider, this is the first book to teach everything clinicians need to know to gently guide patients and families through what can often be difficult discussions about illness, disease, end-of-life wishes, and hospice care. This technique can be used to discuss any medical diagnosis or treatment, be employed at any age or stage of an illness, and can be used by health care professionals at any level. Readers will be introduced to the patterns of decline

patients follow toward the end of life, criteria for recognizing when a patient’s time is limited, hospice care, ground rules for compassionate communication, and a step-wise method of leading patients and families through difficult goals of care conversations in a collaborative way. The book includes specific questions to ask and starter language clinicians can use for developing their own patient-friendly talking points about disease progression, the end of life, concerns that a patient’s time is limited, advanced directives, code status, and hospice care. An Arc of Conversation Guide, for use when learning this technique, is also included. While modern medicine is terrific at acute stabilization of illness or injury, it often ignores the elephant in the room—disease progression and death. By doing so, the healthcare system frequently misses opportunities to align patient wishes with the care they receive. Furthermore, physicians often avoid difficult conversations with patients due to a lack of training or the assumption that hospice care represents medical or personal failure. Incorporating the material and technique taught in The Arc of Conversation into everyday practice will enable clinicians to acknowledge and discuss patient decline and to confidently include hospice care as a viable option for treatment that can support patient values, wishes, and priorities. Moving toward a continually collaborative approach with patients—a shift away from physician-directed care to patient-centered care—will enable clinicians to develop treatment plans that prioritize outcomes that matter most to patients and families, improving patient and family experience of health care across their lives and providing patients with the ‘soft landing’ they want at the end.

Handbook of Psychiatry in Palliative Medicine Harvey Max Chochinov 2009 Psychiatric, or psychosocial, palliative care has transformed palliative medicine. Palliation that neglects psychosocial dimensions of patient and family experience fails to meet contemporary standards of comprehensive palliative care. While a focus on somatic issues has sometimes overshadowed attention to psychological, existential, and spiritual end-of-life challenges, the past decade has seen an all encompassing, multi-disciplinary approach to care for the dying take hold. Written by internationally known psychiatry and palliative care experts, the Handbook of Psychiatry in Palliative Medicine is an essential reference for all providers of palliative care, including psychiatrists, psychologists, mental health counselors, oncologists, hospice workers, and social workers.

JJ's Journey Tracy Calhoun 2017-10-03 Tracy Calhoun, a longtime nurse, shares her heart-melting memoir of working alongside JJ, the Therapy Dog, the brightest and most intuitive dog Tracy has ever trained. When not mooching dog treats, JJ is dedicated to helping humans cope with tragedy and loss through love and hugs. Tracy Calhoun, a nurse on staff at Samaritan Evergreen Hospice House in Oregon, paused at the bedside of an elderly patient in a coma. The woman had no family or friends, but the hospice team had learned she liked dogs, so Tracy put her Golden Retriever, JJ, a staff “therapist,” on the woman’s bed. JJ snuggled up, nuzzled a motionless hand, and then settled in, letting her body warmth cuddle and comfort the patient in her final hours. The woman, who had been unresponsive for days, then performed her final, intentional act. She stroked JJ’s head. Tracy recorded the intimate moment on her phone, then uploaded it to Facebook where she was keeping a modest account for friends, family, and community members who knew her and JJ. In August 2015, that video went viral, and was rapidly seen by tens of millions of viewers worldwide. To Tracy, it was a turning point in her mission to explain to a wider audience the joy that therapy dogs provide, and to do it with humor and canine chaos, as only a dog obsessed with bacon, puppies, and swimming can. Along the way, Tracy’s own story has grown and changed through her love of animals, and she’s found, in difficult times, she has needed the same comfort her pups offer to patients—for herself. “These stories of an unforgettable and deeply intuitive Golden Retriever named JJ, as told by her fabulous handler Tracy, are shared with humor and heart. Many wonderful moments happen when working with therapy dogs and reading about JJ’s magic is an extraordinarily moving experience.” — Donna Frindt, Executive Director, Project Canine “An emotionally satisfying and entertaining collection of tales not only between a dog and her human, but between this remarkable soul in a Golden Retriever suit and dozens of people in crisis—from hospice care to school shootings.” —Janet Velanovsky , Owner, Kaizen Pet Training & Behavior “An inspiring memoir, JJ’s Journey illustrates the medical and spiritual benefits of the human-animal bond through JJ’s unwavering patience, love, and support for the hospice patients and their grieving families. JJ’s Journey brings to light that in our greatest time of need, every person can feel they are loved, honored, and mean something in this world thanks to the unconditional love that comes so naturally from a

therapy dog’s heart.” —Colby Webb, Founder, Sav-a-Bull Rescue and author of Forty One Pit Bulls
Art Therapy in Palliative Care Mandy Pratt 2015-11-17 This book provides a comprehensive and accessible introduction to the practice and results of art therapy in palliative care. It includes first-hand accounts from both therapists and clients in a variety of palliative care settings including:- * hospices and hospitals * patients own homes * prisons (AIDS patients) * adolescent griefwork groups These case studies include examples of client art work and illustrate clearly how art therapy can allow patients to regain feelings of control over their lives.

Caring for the Dying at Home Keri Thomas 2020-03-11 This comprehensive resource book, the key text for the Gold Standards Framework (GSF) Programme, supports and enables all primary health professionals, and all those involved in palliative care, to make improvements in care provided for their patients, as recommended in the NICE guidance on Supportive and Palliative Care. It aims to strengthen the role, confidence, systems and skills of primary healthcare teams for the delivery of palliative care and patient support. The GSF, recommended and promoted by the NHS End of Life Initiative, Modernisation Agency and Macmillan, is already used by over 1000 teams in the UK, and is now being offered to every primary care team to improve end-of-life care for all.

The Cancer Journey Chadi Nabhan 2024-09-24 "This work is a guide to everything cancer from A to Z, simplifying ALL cancer concepts for patients, families, and the non-oncologist"--

Bitter and Sweet; A Family's Journey with Cancer Darcy Thiel, MA, LMHC 2013-03-16 Bitter and Sweet, A Family’s Journey with Cancer is a true story about Tim, Darcy, and their family. They lived a typical American life until Tim was suddenly diagnosed with stage IV gallbladder cancer at the age of 48. The five months that followed were the most difficult, tender and miraculous months of their lives. Join them on their roller coaster ride through the great spiritual challenge of holding the most bitter and sweet experiences at the same time and witness the triumph of the human spirit.

Grief and Bereavement in the Adult Palliative Care Setting E. Alessandra Strada 2013-04-09 For patients and family caregivers the journey through illness and transitions of care is characterized by a series of progressive physical and emotional losses. Grief reactions represent the natural response to those losses. Grief is defined by a constellation of physical, cognitive, emotional and spiritual manifestations, varying in length and severity. While grief reactions are common and expected responses to loss, they have the potential to cause significant suffering. And, while grief is not a disease, it can develop into a pathological process warranting specialized treatment. Additionally, some aspects of grief overlap with the symptoms of clinical depression and anxiety, making diagnosis difficult. Grief and Bereavement in the Adult Palliative Care Setting provides practical, evidence-based, and clinically effective approaches to understanding the multifaceted nature of grief and bereavement in patients with advanced illness and their caregivers. This handbook is an ideal tool for palliative care providers of various disciplines who provide direct clinical services to patients and family members. It assists clinicians in recognizing and identifying grief reactions as unique expressions of patients and caregivers' history and psychological functioning. Primary care physicians who provide care to patients and families will also find this practical assessment and treatment guide helpful. They will learn how to best support bereaved patients and caregivers when grief is uncomplicated, and when to choose more active interventions that may include appropriate referrals to mental health professionals.

Where All Our Journeys End C. Lynn Anderson 2008-03 Where All Our Journeys End: Searching for the Beloved in Everyday Life explores our need to connect and reconnect with the Divine and all that has been graced by her. In these writings, we remember who and what we are in our blessings of being human beings entrusted to co-create; human beings who are divine sparks of the divine essence; human beings who love, passionately love, all of creation. For the Beloved is our ultimate destiny, where all our journeys truly do end. This book captures the audience with the grace of God/Goddess as the reader is taken chapter by chapter on a journey into healing. Written in a passionate, holistic voice, with personal and professional stories, Where All Our Journeys End projects a natural rhythm, expressed in the ebb and flow of its prose and poetry, which transforms thinking into being and doing for the Beloved in discovery and recovery.
 ADVANCED REVIEWS AND ENDORSEMENTS "C. Lynn Anderson makes a highly significant contribution

to the understanding and practice of a spirituality which can support our journey through the major paradigm shift needed for humanity and Earth to thrive in the 21st Century. She brings extraordinary depth and breadth of intellect, clarity and beauty of expression to the discovery of a creation-centered spirituality that can nurture and encourage the reader in compassionate and sustainable living." J. Melvin Bricker, D.Min., Former Vice President of Academic Affairs, The University of Creation Spirituality, Oakland, CA. "Beautifully written C. Lynn Anderson gives voice to the creation story and colors it with her hue of compassion." Ana Perez-Chisti, Ph.D, National Representative of the Sufi Movement International and Chair of the Ph.D. Global Studies Department - Institute of Transpersonal Psychology. "C. Lynn Anderson has written an eloquent and inspirational book on how to live a deeply spiritual life that honors diversity while affirming fundamental unity. She powerfully integrates the insights of psychology with the wisdom of the world's religious traditions. Many of her personal insights are expressed in beautiful poems." Charles M. Burack, Ph.D., Chair of Liberal Arts and Director of the B.A. Psychology Program, John F. Kennedy University, former faculty at Naropa University, and author of D. H. Lawrence's Language of Sacred Experience. "C. Lynn Anderson's writing is insightful, compassionate, profound and inspirational. She speaks with the voice of someone who has been there and continues to go there." Mary Raymer, L.M.S.W., A.C.S.W., International Consultant and Trainer, Social Work Leader - Project on Death in America, and co-author of What Social Workers Do: A Guide to Social Work in Hospice and Palliative Care. "Dr. Anderson has committed herself to re-connecting social work practice with the compassion of heart and the spirit of soul. She walks a healing journey and invites others to walk with her to sustain life and nurture creativity."
