Bad Girls of Japan L. Miller 2005-12-09 Are bad girls casualties of patriarchy, a necessary evil, or visionary pioneers? The authors in this volume propose shifts in our perceptions of bad girls by providing new ways to understand them through the case of Japan. By tracing the concept of the bad girl as a product of specific cultural assumptions and historical settings, *Bad Girls of Japan* maps new roads and old detours in revealing a disorderly politics of gender. *Bad Girls of Japan* explores deviancy in richly diverse media: mountain witches, murderers, performance artists, cartoonists, schoolgirls and shoppers gone wild are all part of the terrain.

Handbook for Rebels and Outlaws Mark Mirabello 2008-12-03 This is a book about freedom. Written for intellectual swashbucklers -- men and women who are radicals in politics and infidels in religion -- warriors who hammer the stake of fear into the heart of tyranny -- this volume belongs in select book collections, between the black magic and the pornography texts.

Psychologisation in Times of Globalisation Jan De Vos 2012-05-16 Today more than ever, our understanding of ourselves, others and the world around us is described in psychological terms. Psychologists deeply influence our society, and psychological-discourse has invaded companies, advertising, culture, politics, and even our social and family life. Moreover, psychologisation has become a global process, applied to situations such as torture, reality TV and famine. This book analyses this 'overflow of psychology' in the three main areas of science, culture and politics. The concept of psychologisation has become crucial to current debates in critical psychology. De Vos combines these debates with insights from the fields of critical theory, philosophy and ideology

critique, to present the first book-length argument that seriously considers the concept of psychologisation in these times of globalisation. The book contains numerous real-world examples making it an accessible and engaging analysis that should be of interest to researchers, postgraduates and undergraduate students of psychology and philosophy.

Historical Disaster Experiences Gerrit Jasper Schenk 2017-03-20 Historical disaster research is still a young field. This book discusses the experiences of natural disasters in different cultures, from Europe across the Near East to Asia. It focuses on the pre-industrial era and on the question of similarities, differences and transcultural dynamics in the cultural handling of natural disasters. Which long-lasting cultural patterns of perception, interpretation and handling of disasters can be determined? Have specific types of disasters changed the affected societies? What have people learned from disasters and what not? What adaptation and coping strategies existed? Which natural, societal and economic parameters play a part? The book not only reveals the historical depth of present practices, but also reveals possible comparisons that show globalization processes, entanglements and exchanges of ideas and practices in pre-modern times.

The Red Thread Bernard Faure 1998 Is there a Buddhist discourse on sex? In this innovative study, Bernard Faure reveals Buddhism's paradoxical attitudes toward sexuality. His remarkably broad range covers the entire geography of this religion, and its long evolution from the time of its founder, Xvkyamuni, to the premodern age. The author's anthropological approach uncovers the inherent discrepancies between the normative teachings of Buddhism and what its followers practice. Framing his discussion on some of the most prominent Western thinkers of sexuality--Georges Bataille and Michel Foucault--Faure draws from different reservoirs of writings, such as the orthodox and heterodox

"doctrines" of Buddhism, and its monastic codes. Virtually untapped mythological as well as legal sources are also used. The dialectics inherent in Mahayana Buddhism, in particular in the Tantric and Chan/Zen traditions, seemed to allow for greater laxity and even encouraged breaking of taboos. Faure also offers a history of Buddhist monastic life, which has been buffeted by anticlerical attitudes, and by attempts to regulate sexual behavior from both within and beyond the monastery. In two chapters devoted to Buddhist homosexuality, he examines the way in which this sexual behavior was simultaneously condemned and idealized in medieval Japan. This book will appeal especially to those interested in the cultural history of Buddhism and in premodern Japanese culture. But the story of how one of the world's oldest religions has faced one of life's greatest problems makes fascinating reading for all.

Karmic Alibi Patricia Karen Gagic 2015-12-17 Karma is a potent law of the universe. Karma, literally meaning "action," is the sum of your intentional and deliberate consciousness, which prescribes your thoughts and thus determines your actions. Just as positive thoughts initiate positive outcomes, negative thoughts create angst. The "wisdom" of your Karma is yours alone; you cannot experience someone else's karma. In *Karmic Alibi*, expert Patricia Gagic shares how you can influence the sovereignty of your karma. By mastering the "five radical degrees of life" you can expedite the wisdom of your karma so as to live in a state of joyful and purpose - filled abundance emotionally, physically and spiritually - which is your divine right. In this soulful and most insightful book, Patricia examines her own beliefs and describes how she transformed them. By using her examples from her life, and thanks to the trail markers she leaves along the way, she makes it easier for each of us to create the life we wish to live, too.

Thinking Literature across Continents Ranjan Ghosh 2016-11-17 Thinking Literature across Continents finds Ranjan Ghosh and J. Hillis Miller—two thinkers from different continents, cultures, training, and critical perspectives—debating and reflecting upon what literature is and why it matters. Ghosh and Miller do not attempt to formulate a joint

theory of literature; rather, they allow their different backgrounds and lively disagreements to stimulate generative dialogue on poetry, world literature, pedagogy, and the ethics of literature. Addressing a varied literary context ranging from Victorian literature, Chinese literary criticism and philosophy, and continental philosophy to Sanskrit poetics and modern European literature, Ghosh offers a transnational theory of literature while Miller emphasizes the need to account for what a text says and how it says it. Thinking Literature across Continents highlights two minds continually discovering new paths of communication and two literary and cultural traditions intersecting in productive and compelling ways.

The Nine Peter Levenda 2004-09 The roots of coincidence and conspiracy in American politics, crime, and culture are examined in this book, exposing new connections between religion, political conspiracy, and occultism. Readers are taken from ancient American civilization and the mysterious mound builder culture to the Salem witch trials, the birth of Mormonism during a ritual of ceremonial magic by Joseph Smith, Jr., and Operations Paperclip and Bluebird. Not a work of speculative history, this exposé is founded on primary source material and historical documents. Fascinating details are revealed, including the bizarre world of "wandering bishops" who appear throughout the Kennedy assassinations; a CIA mind control program run amok in the United States and Canada; a famous American spiritual leader who had ties to Lee Harvey Oswald in the weeks and months leading up to the assassination of President Kennedy; and the "Manson secret."

Man’s Fate and God’s Choice Bhimeswara Challa 2011-02-09 The world today is facing a bewildering array of problems where human behavior is both brazen and bizarre. Those who are searching for a way out are daring to ask fundamental questions: What is man’s rightful place? Are we a doomed species? Is God becoming weary of mankind? In *Man’s Fate and God’s Choice*, Bhimeswara Challa shares his comprehensive study of human behavior that suggests that the very paradigm of our thinking is

inappropriate for the current challenges we face. In a thoughtful, innovative presentation of ideas, Challa posits that any betterment in human behavior needs a cathartic change at the deepest level, ultimately reawakening the intelligence of the human heart. He begins by examining the greatest challenge of this generation of human beings and continues by placing the multiple identities of man in perspective, reviewing our growing insensitivity to human suffering. Finally, he looks to the living world for inspiration, metaphors, and models for human transformation. Man's Fate and God's Choice incisively covers an array of issues and proposes an agenda for action as it challenges those who see misery and ask "Why?" to also see the promise in the rainbow and then ask "Why not?"

The Secret Path Paul Brunton 2011-08-31 'The treasure-trove of the real self is within us, but it can be lifted only when the mind is still.' Paul Brunton was one of the 20th century's greatest explorers of, and writers on, the spiritual traditions of the East. He travelled widely throughout India (in particular) and met gurus and teachers who enriched his life immeasurably. By passing on to us the wisdom he learned directly from these holy men, he is widely credited as having introduced yoga and meditation to the West. In *The Secret Path*, Paul Brunton explains in simple language how to meditate, and how this will transform your everyday existence. He also describes the remarkable experiences and understandings he himself gained from meditation and how, by making this ancient practice a part of your life, you will be able to experience a valuable kind of freedom and a deep inner peace. The classic work - which has been reprinted many times - is a very special pointer towards your inner world, and one written by a most unusual and adventurous man of insight.

The Hill of the Ravens H. A. Covington 2003-07-15 It is morning in America, many years in the future. As the 22nd century approaches, the United States and Canada have been shattered by war and upheaval and have broken up into separate ethnic, racial, and political enclaves. On the east coast a crumbling, bankrupt and tottering United States

government still holds a weak and impotent sway over a ragged collection of tattered states and cities, but life is chaotic and plagued with poverty, violence, and desperation. The entire Southwest, beginning with Texas and extending westward to southern California and north as far as Utah, has become the Spanish-speaking Mexican state of Aztlan. And in the Pacific Northwest, from northern California on up to Alaska, a brutal fascist and white supremacist dictatorship rules the Northwest American Republic. Colonel Donald Redmond of the Bureau of State Security (BOSS) is one of the Northwest Republic's most ruthless and skillful political policemen. Then on a bright October morning he is called into the office of the State President, where he is given a top-secret assignment. A skeleton from the bloody and treacherous days of the revolution against America is about to emerge from the closet, and one of the most carefully guarded and suppressed mysteries of that revolution may become public knowledge. That long hidden truth may undermine the very moral and political foundations of the white supremacist state. A woman's life hangs in the balance, but possibly even the fate of a continent as well, as Donald Redmond and his partner Sergeant Nel plunge into the past and seek for the answer: who betrayed the Olympic Flying Column, and why? In *The Hill of the Ravens*, underground cult novelist H. A. Covington offers us a grim and chilling view of a future that may yet come to be.

African American Servitude and Historical Imaginings M. Jordan 2004-08-20 In *African-American Servitude and Historical Imaginings* Margaret Jordan initiates a new way of looking at the African American presence in American literature. Twentieth-century retrospective fiction is the site for this compelling investigation about how African American servants and slaves have enormous utility as cultural artifacts, objects to be acted upon, agents in place, or agents provocateurs. Jordan argues that those who even those seemingly innocuous, infrequently visible, or silent servants are vehicles through which history, culture and social values and practices are cultivated and perpetuated, challenged and destabilized. Jordan demonstrates how African American servants and servitude are strategically deployed and engaged in ways which

encourage a rethinking of the past. She examines the ideological underpinnings of retrospective fiction by writers who are clearly social theorists and philosophers. Jordan contends that they do not read or misread history, they imagine history as meditations on social realities and reconstruct the past as a way to confront the present.

Buddho Venerable Acariya Thoon Khippapanyo 2022-12 I have written this book, Buddho, so that readers will come to understand the correct meaning and use of the word “Buddho.” There are those who wrongly believe that by just reciting the word “Buddho” they are able to rid defilements and cravings (kilesa) from their minds, then expecting wisdom to arise which will enable them to realize how things really are (the Truth). However, just reciting repetitiously the parikamma word “Buddho” does not make one reach purity of mind (citta) and gain Noble Fruitions, and Nibbana. The use of the word “Buddho” has two distinct applications in these Dhamma practices: Samatha (tranquility meditation) Vipassana (gaining wisdom) These two types of Dhamma practice, samatha and vipassana, have different purposes and ways to practice. You will know and understand those differences by reading this book. Please read with rational discernment and come to the correct understanding. Once you understand the correct meaning and use of “Buddho,” Dhamma practice will not be confusing. In your present life, if you have accumulated sufficient merit and virtue (parami), you shall reach one of the four stages of Noble Fruitions. If not, you will reincarnate in the era of the next Lord Buddha, Buddha Metteyya.” You will listen to his Dhamma, develop wisdom and see the Truth. You will reach the ultimate state of Nibbana, becoming an arahant. In the present life, consider yourself as a lucky person to become a Buddhist disciple. Do not let this good opportunity go by. Put forth great effort to practice Dhamma and strive to accumulate merit and virtue. If you miss this good opportunity in the present life, it is uncertain that you will reincarnate to become a Buddhist again as in the present life. In this life, you have responsibilities and work to do, so just keep doing them as your duty. As your special task, keep practicing Dhamma and accumulate virtue and merit, for these will go with you when you pass away from this world. It

will be the benefit of life and your real treasure. Finally, my wish for you is that you gain discernment and wisdom to see the real view of the Truth in this present life. Phra Acariya Thoon Khippapanno The Colonizer's Model of the World James Morris Blaut 1993 *A Good Wife* Samra Zafar 2019-12-17 At fifteen, Samra Zafar had big dreams for herself. She was going to go to university, and forge her own path. Then with almost no warning, those dreams were pulled away from her when she was suddenly married to a stranger at seventeen and had to leave behind her family in Pakistan to move to Canada. Her new husband and his family promised that the marriage and the move would be a fulfilment of her dream, not a betrayal of it. But as the walls of their home slowly became a prison, Samra realized the promises were empty ones. In the years that followed she suffered her husband's emotional and physical abuse that left her feeling isolated, humiliated and assaulted. Desperate to get out, and refusing to give up, she hatched an escape plan for herself and her two daughters. Somehow she found the strength to not only build a new future, but to walk away from her past, ignoring the pleas of her family and risking cultural isolation by divorcing her husband. But that end was only the beginning for Samra. Through her academic and career achievements, she has gone on to become a mentor and public speaker, connecting with people around the world from isolated women in situations similar to her own, to young schoolgirls in Kenya who never allowed themselves to dream to men making the decisions to save for their daughters' educations instead of their dowries. *A Good Wife* tells her harrowing and inspiring story, following her from a young girl with big dreams, through finding strength in the face of oppression and then finally battling through to empowerment.

My Twenty-one Years in the Fiji Islands ; And, The Story of the Haunted Line Totaram Sanadhya 1991 "Totaram Sanadhya came to Fiji as a ginnitiya, or indentured labourer, in 1893. In 1914, he returned to India and together with Benarsides Chaturvedi wrote this book, a powerful

indictment of the indentured labour system and the treatment of Indians in Fiji. ... It was one of the most frequently used sources of information and argument during the public movement in India that led to the abolition of indenture in the 1910s; the movement Gandhi later called the first national *sayagrabha*. ... [This] volume also includes an English translation of *The story of the haunted line*: a moving story of a man saved from fear and despair by Hindu devotion and the friendship of ethnic Fijians."--Back cover.

Magick Without Tears Aleister Crowley 2014-03-07 The book consists of 80 letters to various students of magick. Originally to be titled *Aleister Explains Everything*, the letters offer his insights into both magick and Thelema—Crowley's religious and ethical system—with a clarity and wit often absent in his earlier writings. The individual topics are widely varied, addressing the orders O.T.O. and AA, Qabalah, Thelemic morality, Yoga, astrology, various magical techniques, religion, death, spiritual visions, the Holy Guardian Angel, and other issues such as marriage, property, certainty, and meanness. The book is considered by many as perhaps Crowley's most notable contribution to the occult studies, defining magick for the 20th century.

The Wisdom of the Overself Paul Brunton 2015-05-26 Inspired by Paul Brunton's years spent with sages in Asia, *The Wisdom of the Overself* and its companion volume *The Hidden Teaching Beyond Yoga* were written at the request of these remarkable teachers, who recognized that Brunton had a significant role to play in the transmission of traditional wisdom to the West. Here is a profound re-creation of these teachings, brought to life and made accessible by Brunton's insights. In print since the 1940s, Brunton's works are considered to be among the most comprehensive, clear, and practical guides on the path to enlightenment. Brunton unfolds the grand vision for human development by investigating consciousness as the source of all experience; how to move from ego-centered life to the transcendent reality; the interplay of karma, free will, and grace; the nature of evil and suffering; how to awaken intuition and penetrative insight; the passage through death to rebirth; and psychic experiences and mystic visions. He also provides seven ultramystic exercises to open

the door to higher consciousness, including a healing meditation on the sun; practices for transforming the future, dream, and sleep; and a meditation on the timeless self. These techniques lead to the deepest spiritual realizations—to the true "Wisdom of the Overself." This new edition has been updated to incorporate Brunton's final revisions. It includes a new foreword plus supplementary reading material selected from the author's archives by the Paul Brunton Philosophic Foundation. Contents Foreword by the Paul Brunton Philosophic Foundation 1. Prefatory 2. The Meaning of Mentalism 3. The Birth of the Universe 4. Studies in Dreams 5. The Metaphysics of Sleep 6. The Power of Denial Bernard Faure 2003-03-02 Innumerable studies have appeared in recent decades about practically every aspect of women's lives in Western societies. The few such works on Buddhism have been quite limited in scope. In *The Power of Denial*, Bernard Faure takes an important step toward redressing this situation by boldly asking: does Buddhism offer women liberation or limitation? Continuing the innovative exploration of sexuality in Buddhism he began in *The Red Thread*, here he moves from his earlier focus on male monastic sexuality to Buddhist conceptions of women and constructions of gender. Faure argues that Buddhism is neither as sexist nor as egalitarian as is usually thought. Above all, he asserts, the study of Buddhism through the gender lens leads us to question what we uncritically call Buddhism, in the singular. Faure challenges the conventional view that the history of women in Buddhism is a linear narrative of progress from oppression to liberation. Examining Buddhist discourse on gender in traditions such as that of Japan, he shows that patriarchy--indeed, misogyny--has long been

central to Buddhism. But women were not always silent, passive victims. Faure points to the central role not only of nuns and mothers (and wives) of monks but of female mediums and courtesans, whose colorful relations with Buddhist monks he considers in particular. Ultimately, Faure concludes that while Buddhism is, in practice, relentlessly misogynist, as far as misogynist discourses go it is one of the most flexible and open to contradiction. And, he suggests, unyielding in-depth examination can help revitalize Buddhism's deeper, more ancient egalitarianism and thus subvert its existing gender hierarchy. This groundbreaking book offers a fresh, comprehensive understanding of what Buddhism has to say about gender, and of what this really says about Buddhism, singular or plural.

Grace in Auschwitz Jean-Pierre Fortin 2016-09-01 The postmodern human condition and relationship to God were forged in response to Auschwitz. Christian theology must now address the challenge posed by the Shoah. *Grace in Auschwitz* offers a constructive theology of grace that enables twenty-first-century Westerners to relate meaningfully to the Christian tradition in the wake of the Holocaust and unprecedented evil. Through narrative theological testimonial history, the first part articulates the human condition and relationship to God experienced by concentration camp inmates. The second part draws from the lives and works of Simone Weil, Dorothee Solle, Dietrich Bonhoeffer, Alfred Delp, Hans Urs von Balthasar, and Sergei Bulgakov to propose and apply a coherent kenotic model enabling the transposition of the Christian doctrine of grace into categories strongly correlating with the experience of Auschwitz survivors. This model centers on the vulnerable Jesus Christ, a God who takes on the burden of the human condition and freely suffers alongside and for human beings. In and through the person of Jesus, God is made present and active in the midst of spiritual desolation and destitution, providing humanity and solace to others.

Diamond Sutra Narratives Chiew Hui Ho 2019-07-08 Contextualizing the sutra within a milieu of intense religious and cultural experimentation, this volume unravels the sudden rise of Diamond Sutra devotion in the Tang dynasty against the backdrop of a range of social, political, and literary activities. Through the translation and exploration

of a substantial body of narratives extolling the efficacy of the sutra, it explores the complex social history of lay Buddhism by focusing on how the laity might have conceived of the sutra and devoted themselves to it. Corroborated by various sources, it reveals the cult's effect on medieval Chinese religiosity in the activities of an empowered laity, who modified and produced parasutraic texts, prompting the monastic establishment to accommodate to the changes they brought about.
