Island of the Passion Chuck Hitt Brown 2002 In the late nineteenth century, Mexico and France laid claim to Clipperton Island. In 1908 Mexico places a garrison of men and their families on the island to reinforce their claim. All goes well until 1914 when, because of the revolution that tears Mexico apart, the garrison is no longer supplied. Scurvy claims many of their lives and in a desperate attempt to save those that are left, the Captain tries to row a boat for help. He perishes along with three men he took with him. The lone man, left on the island, goes crazy and declares himself king. For twenty-two months he rapes, tortures and murders some of the women and children of the garrison. Finally, two of the women are successful in killing him. A United States warship, looking for Germans, rescues the survivors and returns them to Mexico and safety.

The Uses of Images E.H. Gombrich 1999-01-26 In this new volume - the tenth in the series of his collected essays - Professor Gombrich returns to themes that have long preoccupied him in his study of visual imagery of all kinds. Central to these essays is a consuming interest in the functions of images, and how these functions - and the images - change over time. In wide-ranging studies of both 'high' and 'low' art, from fresco painting, altar painting, the International Gothic Style and outdoor sculpture to doodles, pictorial instructions, caricature and political propaganda, Gombrich discusses the role of supply and demand, competition and display, the 'ecology' of images and the idea of 'feedback' in the interplay of means and ends, as developing skills in turn stimulate new demands. He explores further aspects of the uses of images in his essays on the hanging of pictures and on the use (or misuse) of images as historical evidence.

Psyche's Task James G. Frazer 2007-03-01 According to Frazer, superstition may have been responsible for some terrible misunderstandings and even worse misdeeds, but in lending strength to the core institutions of government, private property, marriage, and respect for human life, superstition has played an invaluable role in the increased civility of man. "Surely it is better," he asserts, "that men should do right from wrong motives than that they should do wrong with the best intentions." A treat for students of history and social anthropology, Psyche's Task is a lively, informative defense from the author of the influential The Golden Bough. Scottish anthropologist SIR JAMES GEORGE FRAZER (1854-1941) also wrote Man, God, and Immortality (1927) and Creation and Evolution in Primitive Cosmogonies (1935).

Renaissance Europe 1480 - 1520 John Hale 2000-06-08 The new edition of this classic history examines the political, economic, social, religious and cultural life of Europe at the height of the Renaissance. J.R. Hale not only records the events of 1480-1520, but also suggests what it was like to have lived in this period. He provides readers with an understanding of the quality of lives of people living at this time and includes processes and personalities not often covered by other books. For the second edition Professor Michael Mallet provides an updated bibliography and an extended introduction explaining the book's place in the historiography of the subject. The book is arranged thematically, each chapter designed to provide information about a specific field of inquiry and also give an insight into the people of this era. J. R. Hale investigates how these people felt about their environment and the passage of time; their relationships with government and other institutions, from the Church to the family; their economic frameworks; the part religion played in their lives; and what cultural and intellectual pursuits were available to them. Renaissance Europe compares our own attitudes to those of the Renaissance and vice versa, thereby enriching the readers understanding of everyday life in the past.

My Last Sigh Luis Bunuel 2013-03-26 ONE OF THE HOLLYWOOD REPORTER'S 100 GREATEST FILM BOOKS OF ALL TIME • A provocative memoir from Luis Buñuel, the Academy Award winning creator of some of modern cinema's most important films, from *Un Chien Andalou* to *The Discreet Charm of the Bourgeoisie*. Luis Buñuel’s films have the power to shock, inspire, and reinvent our world. Now, in a memoir that carries all the surrealism and subversion of his cinema, Buñuel turns his artistic gaze inward. In swift and generous prose, Buñuel traces the surprising contours of his life, from the Good Friday drumbeats of his childhood to the dreams that inspired his most famous films to his turbulent friendships with Federico García Lorca and Salvador Dalí. His personal narratives also encompass the pressing political issues of his time, many of which still haunt us today—the specter of fascism, the culture wars, the nuclear bomb. Filled with film trivia, framed by Buñuel’s intellect and wit, this is essential reading for fans of cinema and for anyone who has ever wanted to see the world through a surrealist’s eyes.

The Discovery of Jeanne Baret Glynis Ridley 2011-12-06 The year was 1765. Eminent botanist Philibert Commerson had just been appointed to a grand new expedition: the first French circumnavigation of the world. As the ships’ official naturalist, Commerson would seek out resources—medicines, spices, timber, food—that could give the French an edge in the ever-accelerating race for empire. Jeanne Baret, Commerson’s young mistress and collaborator, was desperate not to be left behind. She disguised herself as a teenage boy and signed on as his assistant. The journey made the twenty-six-year-old, known to her shipmates as “Jean” rather than “Jeanne,” the first woman to ever sail around the globe. Yet so little is known about this extraordinary woman, whose accomplishments were considered to be subversive, even impossible for someone of her sex and class. When the ships made landfall and the secret lovers disembarked to explore, Baret carried heavy wooden field presses and bulky optical instruments over beaches and hills, impressing observers on the ships’ decks with her obvious strength and stamina. Less obvious were the strips of linen wound tight around her upper body and the months she had spent perfecting her masculine disguise in the streets and marketplaces of Paris. Expedition commander Louis-Antoine de Bougainville recorded in his journal that curious Tahitian natives exposed Baret as a woman, eighteen months into the voyage. But the true story, it turns out, is more complicated. In *The Discovery of Jeanne Baret*, Glynis Ridley unravels the conflicting accounts recorded by Baret’s crewmates to piece together the real story: how Baret’s identity was in fact widely suspected within just a couple of weeks of

embarking, and the painful consequences of those suspicions; the newly discovered notebook, written in Baret’s own hand, that proves her scientific acumen; and the thousands of specimens she collected, most famously the showy vine bougainvillea. Ridley also richly explores Baret’s awkward, sometimes dangerous interactions with the men on the ship, including Baret’s lover, the obsessive and sometimes prickly naturalist; a fashion-plate prince who, with his elaborate wigs and velvet garments, was often mistaken for a woman himself; the sour ship’s surgeon, who despised Baret and Commerson; even a Tahitian islander who joined the expedition and asked Baret to show him how to behave like a Frenchman. But the central character of this true story is Jeanne Baret herself, a working-class woman whose scientific contributions were quietly dismissed and written out of history—until now. Anchored in impeccable original research and bursting with unforgettable characters and exotic settings, *The Discovery of Jeanne Baret* offers this forgotten heroine a chance to bloom at long last.

Cartographies Marjorie Agosín 2004 On the impulse behind *Cartographies*, Marjorie Agosín writes, "I have always wanted to understand the meaning of displacement and the quest or longing for home." In these lyrical meditations in prose and poetry, Agosín evokes the many places on four continents she has visited or called home. Recording personal and spiritual voyages, the author opens herself to follow the ambiguous, secret map of her memory, which "does not betray." Agosín's journey begins in Chile, where she spent her childhood before her family left in the early days of the Pinochet dictatorship. Of Santiago Agosín writes, "Day and night I think about my city. I dream the dream of all exiles." Agosín also travels to Prague and Vienna, ancestral homes of her grandparents, and to Valparaíso in Chile, which received them as immigrants. Kneeling among the yellow mounds at the Terezin concentration camp, where twenty-two of her relatives died, Agosín places "small stones, shrubs, the stuff of life on graves I did not recognize." And then on through the Middle East, the Mediterranean, Europe, and the Americas . . . Everywhere, she is drawn to women in whose devotion and creativity she sees a deep vein of hope--from Julia, keeper of the synagogue at Rhodes, to the women potters in the Chilean town of Pomaire. Agosín writes of diaspora, exile, and oppression, yet only to highlight the dignity and valor of those who find refuge in their humanity and their art, in community and tradition. *Cartographies* shows us what can be found when we journey with openness, as approachable to strangers as we are to ourselves.

Women's Writing in Italy, 1400-1650 Virginia Cox 2008-06-16 Winner, 2009 Best Book Award, Society for the Study of Early Modern Women Winner, 2008 PROSE Award for Best Book in Language, Literature, and Linguistics. Professional and Scholarly Publishing Division of the Association of American Publishers This is the first comprehensive study of the remarkably rich tradition of women’s writing that flourished in Italy between the fifteenth and early seventeenth centuries. Virginia Cox documents this tradition and both explains its character and scope and offers a new hypothesis on the reasons for its emergence and decline. Cox combines fresh scholarship with a revisionist argument that overturns existing historical paradigms for the chronology of early modern Italian women’s writing and questions the historiographical commonplace that the tradition was brought to an end by the Counter Reformation. Using a comparative analysis of women's activities as artists, musicians, composers, and actresses, Cox locates women's writing in its broader contexts and considers how gender reflects and reinvents conventional narratives of literary change.

Cedarville University Barbara Loach 2015-10-23 Cedarville University's 125th anniversary in 2012 provided an appropriate moment to look back and remember how God has led so many wonderful people to this place and how His hand has guided and kept us over all these years. As the university continues to

grow and change, many individuals new to the campus--students, administrators, faculty and staff members alike--may not be aware of all the contributions of those who preceded them. In order to capture those lives before they are lost to history, Dr. Loach set out to record the stories behind some of the faces and names long associated with the university. In addition, she highlights how some of the university's more than 30,000 alumni have served the Lord through various fields of endeavor around the world.
