**Martin Buber** Paul Mendes-Flohr 2002-06-01 This book honors the memory and legacy of Martin Buber, one of the most illustrious members of the faculty of the Hebrew University and a leader in the world of philosophy. Based on the proceedings of a conference held at the Israel Academy of Sciences and Humanities—of which Buber was the founding president—this anthology recognizes Buber's singular contribution to the renaissance of Jewish studies and his international stature as a scholar.

*Foundational Thoughts in Judaism* Per K. Brask 2014 What does Judaism say about free will, suffering, good and evil, sin, responsibility, righteousness? Danish philosopher Andreas Simonsen explains where Judaism stands on these and other complex moral issues, puts them into historical perspective and discusses their relevance to our lives today, while tackling the contradictions, confusions and paradoxes inherent in Judaism's fundamental tenets. He also compares Judaism's teachings to those of Christianity, humanism and selected Western philosophers, both classical and modern. Christians and Jews, believers and non-believers, alike, will find Simonsen's insights fascinating and enlightening. This important 20th-century religious-philosophical work is now available in English for the first time, translated from the Danish by Per K. Brask.

## **Judaism and the Doctrine of Creation**

Norbert M. Samuelson 1994-11-24 The topic of this book is 'creation'. It breaks down into discussions of two distinct, but interrelated, questions: what does the universe look like, and what is its origin? The opinions about creation considered by Norbert Samuelson come from the Hebrew scriptures, Greek philosophy, Jewish philosophy and contemporary physics. His perspective is Jewish, liberal and philosophical.

It is 'Jewish' because the foundation of the discussion is biblical texts interpreted in the light of traditional rabbinic texts. It is 'philosophical' because the subject matter is important in both past and present philosophical texts, and to Jewish philosophy in particular. Finally, it is 'liberal' because the authorities consulted include heterodox as well as orthodox Jewish sources. The ensuing discussion leads to original conclusions about a diversity of topics, including the limits of human reason and religious faith, and the relevance of scientific models to religious doctrine.

*The Jewish Experience* Steven Leonard Jacobs Explores the richness and meaning of Jewish life through history, introducing the basics of Jewish history, the tradition of texts, key philosophical and theological issues and thinkers, the Judaic calendar, contemporary global concerns and what the future may portend for Judaism.

## **Cultural Studies and the Symbolic: Theory Studies, Presented at the University of Glasgow's Centre for Intercultural Studies: v. 1: Occasional papers in cassirer and cultural**

Paul Bishop 2017-12-02 "Given the growing disenchantment, on all sides, with the 'high theory' of the 1970s and 1980s, and with the dominant master-trope of literary and cultural reflexion of the 1980s and 1990s, the extended metaphor or 'allegory', this volume offers a timely re-examination of what, according to Goethe, is a deeper mode of understanding the symbol. Via the life-long preoccupation of Ernst Cassirer with the problems of 'symbolic form', as he christened it, the papers collected here try to come to terms with the thinking of Goethe and Schiller on the symbol, and on related issues. Taken together, they attempt to elucidate the filiation of German classicism down through the nineteenth century to the present, in the belief that some of Cassirer's ideas have fed, often unacknowledged, into the mainstream of contemporary cultural theory, and that the rigour of his thought can help clear up much of the confusion in that 'theory'."

*The Way of Man* Martin Buber 1966

*Handbook of Research on Educational Communications and Technology* David H. Jonassen 2004 This edition of this handbook updates and expands its review of the research, theory, issues and methodology that constitute the field of educational communications and technology. Organized into seven sectors, it profiles and integrates the following elements of this rapidly changing field.

*The Mystery of the Earth* Israel Koren 2010-01-25 Challenging the prevalent view that in order to establish his "Dialogical" thought Martin Buber had to forsake his earlier "mystical" work, Israel Koren demonstrates instead that mystical paradigms serve as the foundation for Buber's dialogue and endow it with greater depth. While most scholars portray Buber's dialogical thought mainly in its Western and modern philosophical background, the author examines Buber's interpretation of Hasidic themes such as Devekut (attachment to God) among others, in order to establish that his dialogical writings evolved out of his interpretation of Judaism in general, his understanding of the Hasidic conception of the world and the mission of man in Hasidism in particular. Buber's work is therefore shown to be original mystical neo-Hasidic thought, which serves as a new link in the historical chain of Jewish mysticism.

**The Existential Philosophy of Etty Hillesum** Meins G. S. Coetsier 2014-01-09 In *The Existential Philosophy of Etty Hillesum* Meins G.S. Coetsier breaks new ground by demonstrating the Jewish existential nature of Etty Hillesum's spiritual and cultural life in light of the writings of Martin Buber, Emmanuel Levinas and Dietrich Bonhoeffer. Hillesum's diaries and letters, written between 1941 and 1943, illustrate her struggle to come to terms with her personal life in the context of the Second World War and the Shoah. By finding God under the rubble of the horrors, she rediscovers the divine presence between humankind, while taking up responsibility for the Other as a way to embrace justice and compassion. In a fascinating, accessible and thorough study, Coetsier dispels much of the confusion that assails readers when they are exposed to the bewildering range of Christian and Jewish influences and other cultural

interpretations of her writings. The result is a convincing and profound picture of Etty Hillesum's path to spiritual freedom.

*The Master and His Emissary* Iain McGilchrist 2019-02-14 A new edition of the bestselling classic—published with a special introduction to mark its 10th anniversary This pioneering account sets out to understand the structure of the human brain – the place where mind meets matter. Until recently, the left hemisphere of our brain has been seen as the 'rational' side, the superior partner to the right. But is this distinction true? Drawing on a vast body of experimental research, Iain McGilchrist argues while our left brain makes for a wonderful servant, it is a very poor master. As he shows, it is the right side which is the more reliable and insightful. Without it, our world would be mechanistic – stripped of depth, colour and value.

**Scripture, Metaphysics, and Poetry** Robert MacSwain 2016-04-01 This book offers a critical edition of arguably the greatest work of English theology in the 20th century: Austin Farrer's Bampton Lectures published as *The Glass of Vision* in 1948. Farrer was an interdisciplinary genius who made original contributions to philosophy, theology, and biblical studies, as well as to our understanding of the role of imagination in human thought and Christian doctrine. According to Farrer, the three primary themes of these lectures are 'scripture, metaphysics, and poetry,' individually and in relation to each other. The lectures defend his famous theory of divine revelation through images rather than propositions or events, a provocative account of the place of metaphysical reasoning in theology, and a literary approach to the Biblical text that was decades ahead of its time and is still controversial. *The Glass of Vision* has generated a rich and interesting interdisciplinary conversation that has lasted for decades, starting with commentators such as Helen Gardner and Frank Kermode. In addition to Farrer's full text, this critical edition also contains an introduction to the significance and context of Farrer's thought, and a selection of thirty-years' worth of commentary by leading British and European theologians and literary scholars: David Brown, Ingolf Dalferth, Hans Haug, Douglas Hedley, David Jasper, and

Gerard Loughlin. Of interest to literary and biblical scholars, theologians, and philosophers, this book holds particular value for those exploring the nature of imagination in contemporary thought and scholarship.

**Dialogue as a Trans-disciplinary Concept**

Paul Mendes-Flohr 2015-06-16 This volume of essays constitutes a critical evaluation of Martin Buber's concept of dialogue as a trans-disciplinary hermeneutic method. So conceived, dialogue has two distinct but ultimately convergent vectors. The first is directed to the subject of one's investigation: one is to listen to the voice of the Other and to suspend all predetermined categories and notions that one may have of the Other; dialogue is, first and foremost, the art of unmediated listening. One must allow the voice of the Other to question one's pre-established positions fortified by professional, emotional, intellectual and ideological commitments. Dialogue is also to be conducted between various disciplinary perspectives despite the regnant tendency to academic specialization. In recent decades, an increasing number of scholars have come to share Buber's position to foster cross-disciplinary conversation, if but to garner, as Max Weber argued, "useful questions upon which he would not so easily hit upon from his own specialized point of view." Accordingly, the objective of this volume is to explore the reception of Buber's philosophy of dialogue in some of the disciplines that fell within the purview of his own writings: Anthropology, Hasidism, Religious Studies, Psychology and Psychiatry.

Muriel Rukeyser and Documentary Catherine Gander 2013-01-04 Provides a new perspective on the documentary diversity of Muriel Rukeyser's work and influences. This study of twentieth-century American poet Muriel Rukeyser explores the multiple avenues of her 'poetics of connection' to reveal a profound engagement with the equally intertextual documentary genre. It examines previously overlooked photo narratives, poetry, prose and archival material and demonstrates an enduring dialogue between the poet's relational aesthetics and documentary's similarly interdisciplinary and creative approach to the world. By considering the sources of documentary in

Rukeyser's work, the study provides insight into her guiding poetic principles, situating her as a vital figure in the history of twentieth-century American literature and culture, and as a pioneering personality in the development of American Studies.

**Mentoring in Higher Education**

Clare Woolhouse 2020-09-07 This book explores the role and importance of mentoring as a form of collaborative learning in higher education. While mentoring has become increasingly popular, the definition itself can remain broad and potentially nebulous, and could be applied to a variety of endeavours. The chapters engage with case studies and empirical research from across the globe that respond to concerns raised within a range of cross-disciplinary fields, providing important clarity as to the role of mentoring within higher education. Offering clarity and precision as well as robust qualitative data, this book will be of interest and value to scholars of mentoring in higher education as well as those engaged in mentoring themselves.

**I And Thou** Martin Buber 1970 Martin Buber's I and Thou has long been acclaimed as a classic. Many prominent writers have acknowledged its influence on their work; students of intellectual history consider it a landmark; and the generation born since World War II considers Buber as one of its prophets. The need for a new English translation has been felt for many years. The old version was marred by many inaccuracies and misunderstandings, and its recurrent use of the archaic "thou" was seriously misleading. Now Professor Walter Kaufmann, a distinguished writer and philosopher in his own right who was close to Buber, has retranslated the work at the request of Buber's family. He has added a wealth of informative footnotes to clarify obscurities and bring the reader closer to the original, and he has written a long "Prologue" that opens up new perspectives on the book and on Buber's thought. This volume should provide a new basis for all future discussions of Buber.

Martin Buber's Life and Work Maurice S.

Friedman 1988 Martin Buber's Life and Work is a complete reprint of Maurice Friedman's monumental three-volume biography. Friedman covers Buber's life from his work on I and Thou to the challenges of Nazi Germany and prewar Palestine. He charts Buber's activities on behalf of Jewish-Arab rapprochement, his dialogue with Dag Hammarskjöld, and comments on the philosopher's last years, his death, and his legacy to world Jewry.

**Martin Buber's Theopolitics** Samuel Hayim Brody 2018-02-16 How did one of the greatest Jewish thinkers of the 20th century grapple with the founding of Israel and the Israeli-Palestinian conflict—one of the most significant political conflicts of his time? Samuel Hayim Brody traces the development of Martin Buber's thinking and its implications for the Jewish religion, for the problems posed by Zionism, and for the Zionist-Arab conflict. Beginning in turbulent Weimar Germany, Brody shows how Buber's debates about Biblical meanings had concrete political consequences for anarchists, socialists, Zionists, Nazis, British, and Palestinians alike. Brody further reveals how Buber's passionate commitment to the rule of God absent an intermediary came into conflict in the face of a Zionist movement in danger of repeating ancient mistakes. Brody argues that Buber's support for Israel stemmed from a radically rich and complex understanding of the nature of the Jewish mission on earth that arose from an anarchist reading of the Bible.

**I And Thou** Martin Buber 2024-12-31 I and Thou (Ich und Du) is a profound philosophical and theological work by Martin Buber that explores the nature of human relationships and our connection to the world, others, and the divine. The book is known for its poetic style and profound insights into the dynamics of dialogue, relationship, and being.

**Noah's Other Son** Brian Arthur Brown 2014-01-08 Noah's Other Son examines twenty-five familiar figures who play major roles in the Qur'an and in both Old and New Testaments of the Bible, revealing how understanding the characters in these texts can point the present-day Muslim, Jew, and Christian toward a more mature and tolerant concept of religion. Noah's Other Son serves as an introduction to the place of the Qur'an in Muslim and world culture, as

well as a tool to help equip all moderate religious people to deal with extremism wherever it may be found.

**The Knowledge of Man** Martin Buber 1988 These six essays present one of the most significant stages in the development of Buber's philosophical thought and particularly his philosophical anthropology. This edition includes an appendix consisting of an interesting dialogue between Buber and psychologist Carl R. Rogers.

**Handbook of Research on Administration, Policy, and Leadership in Higher Education** Mukerji, Siran 2016-09-27 The creation of a sustainable and accessible higher education systems is a pivotal goal in modern society. Adopting strategic frameworks and innovative techniques allows institutions to achieve this objective. The Handbook of Research on Administration, Policy, and Leadership in Higher Education is an authoritative reference source for the latest scholarly research on contemporary management issues in educational institutions and presents best practices to improve policies and retain effective governance. Addressing the current state of higher education at an international level, this book is ideally designed for academicians, educational administrators, researchers, and professionals.

**The Oxford Handbook of Music Composition Pedagogy** Michele Kaschub 2024 The Oxford Handbook of Music Composition Pedagogy presents an illuminating collection of philosophy, research, applied practice, and international perspectives to highlight the practices of teaching and learning in the field of music composition. The Handbook offers various strategies and approaches in composition for teachers, music teacher educators, and students of music education.

My Friendship with Martin Buber Maurice Friedman 2013-06-25 Martin Buber's philosophy of dialogue sought to express the human experience through the ways in which we

encounter and interact with others. His "I—Thou" theory of dialogue and "I—It" theory of monologue expressed ways of understanding one's place in the world in relation to others, objects, and especially God. Buber died in 1965, leaving behind a vast library of writings and ardent students and scholars eager to engage with his ideas. One of the most prominent scholars was Maurice Friedman. Friedman and Buber shared a professional as well as a personal relationship, based on translating, interpreting, and intellectual curiosity. Beginning in the summer of 1950 and ending with Buber's death, this volume takes the reader through Buber's three visits to America, his wife's death, the author's stay in Jerusalem, and the articulation of Buber's culminating philosophy of the interhuman. In tracing this chronology, Friedman draws extensively on his personal collection of letters exchanged with Buber. Intimate and meditative, this book provides an exploration of a deeply intellectual friendship shared between two extraordinary thinkers.

*The Child's Curriculum* Colwyn Trevarthen 2018 All children are born with emotional talent. If left untended, those talents can wane during the first five years of life. The text focuses on children's readiness for learning. It addresses the natural joy explicit in children's early conversations and engagement with music and their development through play with both adults and other children.

*Restoring Soul, Passion, and Purpose in Teacher Education* Peter Grimmer 2021-12-30 This text both challenges and traces the development of a culture of regulation, standardization, performativity, and governmentality evident in Anglophone teaching practice and education. Framed by a brief history of teacher education research and policy in North America over the last six decades, the text argues that the instrumentalization of curriculum and pedagogy has robbed teachers of their pedagogical soul, passion, and purpose. Using a conceptual model, Grimmer forges a pathway for teachers to adopt a soulful way forward in professional practice, individually and collectively enhancing autonomy over programs, and protecting the public trust placed in them as educators. This text will benefit researchers, academics, and educators

with an interest in teachers and teacher education, educational policy and politics, and curriculum thinking and enactment more broadly. Those specifically interested in pedagogy, educational change and reform, and the philosophy of education will also benefit from this book.

*Correspondence, 1939 - 1969* Theodor W. Adorno 2021-05-06 At first glance, Theodor W. Adorno's critical social theory and Gershom Scholem's scholarship of Jewish mysticism could not seem farther removed from one another. To begin with, they also harbored a mutual hostility. But their first conversations in 1938 New York were the impetus for a profound intellectual friendship that lasted thirty years and produced more than 220 letters. These letters discuss the broadest range of topics in philosophy, religion, history, politics, literature, and the arts – as well as the life and the work of Adorno and Scholem's mutual friend Walter Benjamin. Unfolding with the dramatic tension of a historic novel, the correspondence tells the story of these two intellectuals who faced tragedy, destruction, and loss, but also participated in the efforts to reestablish a just and dignified society after World War II. Scholem immigrated to Palestine before the war and developed his pioneering scholarship of Jewish mysticism before and during the problematic establishment of a Jewish state. Adorno escaped Germany to England, and then to America, returning to Germany in 1949 to participate in the efforts to rebuild and democratize German society. Despite the differences in the lifepaths and worldviews of Adorno and Scholem, their letters are evidence of mutual concern for intellectual truth and hope for a more just society in the wake of historical disaster. The letters reveal for the first time the close philosophical proximity between Adorno's critical theory and Scholem's scholarship of mysticism and messianism. Their correspondence touches on questions of reason and myth, progress and regression, heresy and authority, and the social dimensions of redemption. Above all, their dialogue sheds light on the power of critical, materialistic analysis of history to bring about social change and prevent repetition of the disasters of the past.

*Heaven In Ordinarie* Noel O'Donoghue 2000-12-27 A unique study of those human

dimensions such as belonging, loneliness and pathos often overlooked in theology and philosophy.

*The Letters of Martin Buber* Martin Buber 1996-10-01 This carefully edited selection of correspondence includes letters both to - and from - Martin Buber from world-renowned scholars, thinkers, and philosophers. This edition contains the Preface to the German edition, as well as a Biographical Sketch by Grete Schaeder.

*Martin Buber's Journey to Presence* Phil Huston 2007 Publisher description

**Meditations on Fidelity** Sally Jo Nelson Botzler 2017-06-27 The meditations in this book guide the reader in reflecting on some of the most important questions we can ask ourselves as Christians. This small book also supports readers in improving their commitment to understanding themselves and those they love. These meditations could be used by Christian pastors and counselors as they assist parishioners in coming to terms with remorsefulness about their human flaws and in extending sincere expressions of forgiveness to themselves and toward others both in and outside their faith communities.

*Aesthetics across Cultures* Rosy Singh 2023-12-18 This book critically examines the "mutual illuminations" between literature, religion, architecture, films, performative arts, paintings, woodworks, memes and masks cutting across time and space. Architecture is a good example where the eventual success of a project depends on the harmony between physical sciences and aesthetics, design and planning, knowledge of building material, the local climate and awareness of cultural sensibilities. This volume affirms that aesthetics and arts are deeply linked through existential issues of who I am. The chapters in this volume present diverse discursive structures highlighting the in-between spaces between various art forms and mediums, such as: • Architecture, literature and memory • Kafka in SoHo; Kafka and Bernhard • Kirchner's woodcuts; pictorial and stage representations of E.T.A. Hoffmann • Hesse's fairy tales; translations of Pañcatantra • Nietzsche, ritual arts and face masks; martyrdom in La chanson de Roland • Goethe and Hafiz; Indian thought in Martin Buber •

Rhythms of the "Third" across cultures •

Dadaism and contemporary memes This book examines these sublime linkages in a comparative and interdisciplinary way. Engaging and intersectional, this volume will appeal to students and scholars of arts and aesthetics, literature, philosophy, architecture, sociology, translation studies and readers who are interested in cultural, intertextual, intermedial and comparative studies.

*God, Humanity and the Cosmos - 3rd edition* Christopher Southgate 2011-10-13 A systematic exploration of contemporary perspectives in physics, evolutionary biology and psychology as they relate to theological descriptions of the universe, humanity and consciousness. Contributors examine such issues as theological responses to the ecological crisis; how science is treated and valued in education; and the development of the science and religion debate in the 21st century. This is a comprehensive textbook for the student, with periodic exercises to test understanding and encourage discussion of the different topics, and suggestions for further reading.

**Handbook on Postconservative Theological Interpretation** Ronald T. Michener 2024-10-24 Postconservative theology may be said to parallel with "postliberal theology" at its best. Orthodox, biblical, but open to new insights about how to interpret Scripture. But the new insights must be faithful as well as fresh. Postconservative theology is not the same as "progressive theology," which tends to lean toward indeterminant faith expressions, whereas "postconservative" allows for particular faith commitments and expressions but understands that the constructive task of theology is never finished. Authors emphasize various interpretive theological lenses used for doing theology among various postconservative theologians, rather than emphasizing the philosophical background to hermeneutical theory present in other works, such as past influential thinkers (including Gadamer, Grondin, Ricoeur, Heidegger, etc.). This resource could also function as a companion to *Evangelical Theological Method: Five Views* (2018). This emphasis of the chapters will not be on the nuts and bolts of "how to" interpret, but rather on the theological impulses that govern various lenses

(Bible, cultural context, etc.) for doing theology and the way Scripture functions with respect to the practice of interpretation.

**Questioning Cosmopolitanism** Stan van Hooft  
2010-06-16 Wim Vandekerckhove and Stan van Hooft The philosopher, Diogenes the Cynic, in the fourth century BCE, was asked where he came from and where he felt he belonged. He answered that he was a "citi- 1 zen of the world" (kosmopolitês) . This made him the rst person known to have described himself as a cosmopolitan. A century later, the Stoics had developed that concept further, stating that the whole cosmos was but one polis, of which the order was logos or right reason. Living according to that right reason implied showing goodness to all of human kind. Through early Christianity, cosmopolitanism was given various interpretations, sometimes quite contrary to the inclusive notion of the Stoics. Augustine's interpretation, for example, suggested that only those who love God can live in the universal and borderless "City of God". Later, the red-covery of Stoic writings during the European Renaissance inspired thinkers like Erasmus, Grotius and Pufendorf to draw on cosmopolitanism to advocate world peace through religious tolerance and a society of states. That same inspiration can be noted in the American and French revolutions. In the eighteenth century, enlig- enment philosophers such as Bentham (through utilitarianism) and Kant (through universal reason) developed new and very different versions of cosmopolitanism that serve today as key sources of cosmopolitan philosophy. The nineteenth century saw the development of new forms of transnational ideals, including that of Marx's critique of capitalism on behalf of an international working class.

**The Lyotard Reader and Guide** Keith Crome  
2006-09-22 The Lyotard Reader and Guide is a one-stop companion to Lyotard's thought. It covers the full range of his works, from his three main books ( Discours, figure; Libidinal Economy; and The Differend) and up to his influential essays in The Inhuman and Postmodern Fables. The readings are organized into sections on philosophy, politics, art, and literature. Several have never before been translated into English. Detailed introductions to

each section by two leading Lyotard scholars explain the philosopher's key ideas and provide crucial social, political, aesthetic, and philosophical context. As a sourcebook and guide, this is the most up-to-date and comprehensive volume on Lyotard. It is indispensable to students and scholars in philosophy, literature, the arts, and politics.

**Hasidism & Modern Man** Martin Buber  
2015-10-27 Hasidism, a controversial, mystical-religious movement of Eastern European origin, has posed a serious challenge to mainstream Judaism from its earliest beginnings in the middle of the eighteenth century. Decimated by the Holocaust, it has risen like a phoenix from the ashes and has reconstituted itself as a major force in the world of ultra-Orthodox Judaism. Philosopher Martin Buber found inspiration in its original tenets and devoted much of his career to making its insights known to a wide readership. First published in 1958, Hasidism and Modern Man examines the life and religious experiences of Hasidic Jews, as well as Buber's personal response to them. From the autobiographical "My Way to Hasidism," to "Hasidism and Modern Man," and "Love of God and Love of Neighbor," the essays span nearly half a century and reflect the evolution of Buber's religious philosophy in relation to the Hasidic movement. Hasidism and Modern Man remains prescient in its portrayal of a spiritual movement that brings God down to earth and makes possible a modern philosophy in which the human being becomes sacred.
